## PRODUCT CATALOGUE

# // ABOUT US

Meyis Automotive is one of the leading companies for passenger seat accessories industry based in Bursa - Turkey.

We manufacture passenger seat accessories for city urban buses, railways, coaches, vans and continue to lead the industry with our reliability, quality and customer satisfaction. Since its establishment is in 1994 Meyis Automotive has operated with continuous development and has gained a positive reputation for its quality and reliability. We provide a complete service starting with design development in R&D department to designing and manufacturing molds and other tools in our in-house mouldshop. Then we create prototypes and injection production takes place at our injection machines, which ranges in size and strength. Quality checks and measures are carried out. Once the high and universally accepted standards have to been reached, we ensure our products are delivered 'JIT' to our customers. We work with high technology to produce robust, ergonomic and creative designs using our year's worth of experience to produce top quality plastic products ranging from armrest, plastic urban seats, snack trays, footrests, backrests, handles, trim parts, service sets, magazine nets, city bus handle wraps and emergency hammers. Our robotic and automatic production enables us to achieve high precision when manufacturing plastic seat accessories.

Production at Meyis Automotive is based on the IATF 16949 Quality Standard. Meyis Automotive is also an advocate for personal growth of employees and ensures regular training and social activities are carried out to gain the most accomplished and skilled work team. Our consistent growth and short lead time has allowed us to break local market boundaries and reach out to the international market, allowing us to export to over 25 countries. Meyis Automotive aims to maintain its position in the global market by providing high quality products and exceeding customer service to obtain long-term customer relations.

# // OUR VISION

Increased response to changing customer demands, follow new technologies closely. Give back to our employees, customers and the communities to show importance to humanity, environmental values and living standards. We embrace a clear management structure with open mind set and strive to perform activities to become globally recognized and respected supplier and manufacture.

# // OUR MISSION

Our mission is to satisfy customers with both our innovative seating products, and our high quality customer service. Meet expectations and demands of customers in the most economical manner and provide innovative style, based on original design when manufacturing plastic products for passenger seats.

# // QUALITY POLICY

Constantly evolving the quality system by combining technological developments and follow up reports to assess the current system. Provide employee training onsite and externally. Improve our skills and tolerance towards quality system. Ensuring Mutual Total Quality Management among our team. Ensure customer satisfaction with all our customers. Implement production methods that will have any hazardous effects on the environment.

# CERTIFICATE

## CERTIFICATE

Management system as per  
**IATF 16949:2016**  
(1<sup>st</sup> edition, 2016-10-01)

Evidence of conformity with the above standard has been furnished and is certified for:

**Meyis Otomotiv Koltuk  
Komponentleri Sanayi ve Ticaret Limited Şirketi**  
Minareli Çavuş OSB Mah. NOSAB, Akasya Cad. No. 8 Nilüfer  
Bursa  
Turkey

Scope:

**Design and manufacturing of plastic injection parts**

IATF Registration No. 0408090  
Certificate Registration No. 44 111 210234

Issue date: 2021-06-30  
Expiry date: 2024-06-29

*V. B. A. Olt*  
Certification body  
at TÜV NORD CERT GmbH

Essen, 2021-06-30

This certification was conducted in accordance with the IATF „Rules for achieving and maintaining IATF recognition”.  
Validity can be verified at <https://www.tuev-nord.de/de/unternehmen/zertifizierung/zertifikatsdatenbank>.

## Specifications

Stock No:	30005000
Stock Name:	Tip Up Seat
Materials:	PA%30
Weight:	7250 gr
Options:	Colors, upholstery
Homologated:	ECE-R118 - FMVSS302 CMVSS302

## Technical Features

All the plastic materials in this parts are in conformity with the specifications and REACH. All the physical loading tests are done. In design we focused on creating robust, ergonomic, innovative, compact plastic seat. The seat is designed customizable. The tip-tip seat has passed 1.000.000 cycle test and 350 kg static loading test successfully.

30006000

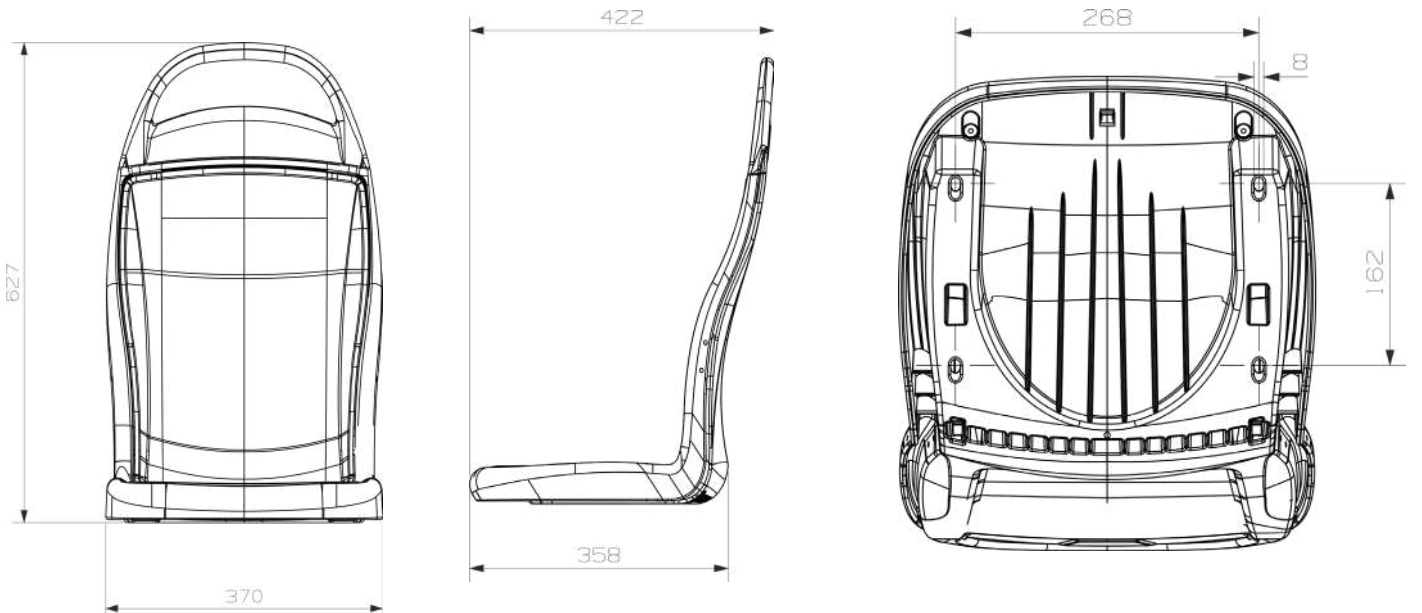

## Specifications

Stock No:	30006000
Stock Name:	Urban Bus Seat 370mm
Materials:	PPC
Weight:	2870 gr
Options:	Colors, upholstery
Homologated:	ECE-R118 - FMVSS 302 CMVSS 302 EN 45545

## Technical Features

All the plastic material in this parts are in conformity with the specifications and REACH. All the physical loading tests are done. The seat has ECE R80.03 regulation. In design we focused on creating robust, ergonomic, innovative, compact plastic seat.

30003000

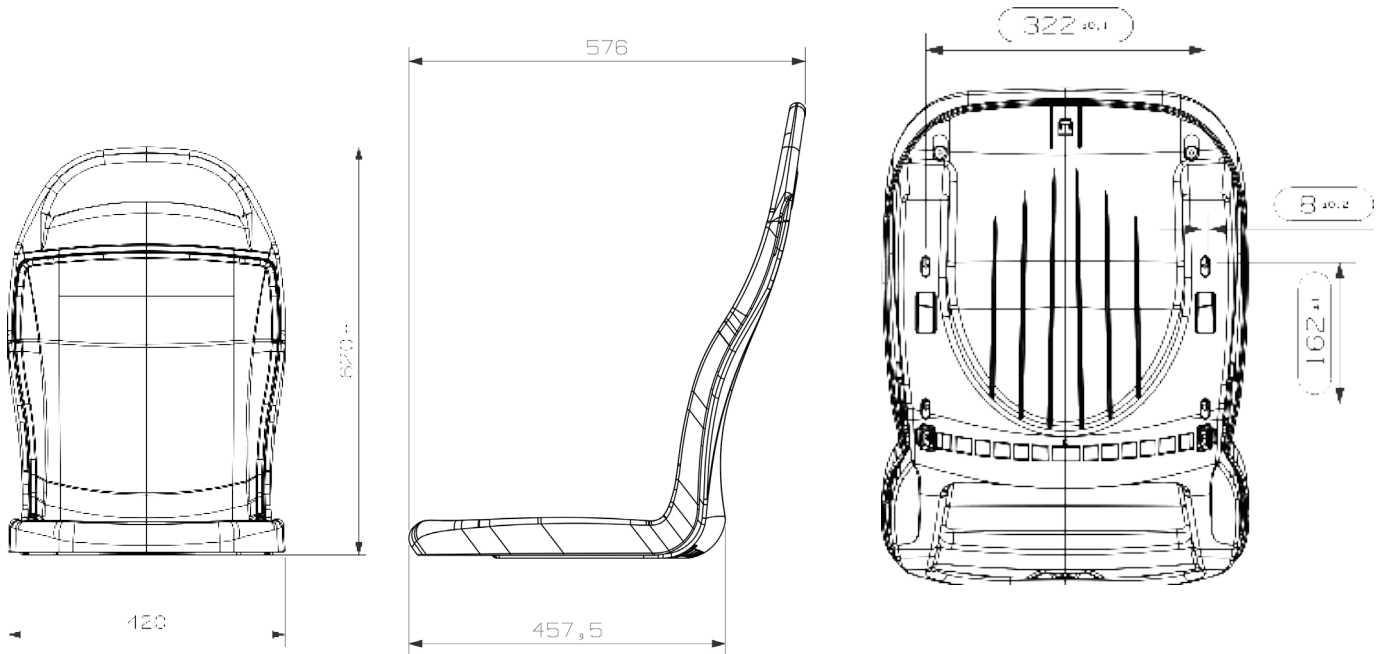

## Specifications

Stock No:	30003000
Stock Name:	Urban Bus Seat 420mm
Materials:	PPC
Weight:	4140 gr
Options:	Colors, upholstery, usb
Homologated:	ECE-R118 - FMVSS 302 - CMVSS 302 EN 45545 UIC564-2

## Technical Features

All the plastic material in this parts are in conformity with the specifications and REACH. All the physical loading tests are done. The seat has ECE R80.03 and UIC 566 regulations. In design we focused on creating robust, ergonomic, innovative, compact plastic seat.

30002000

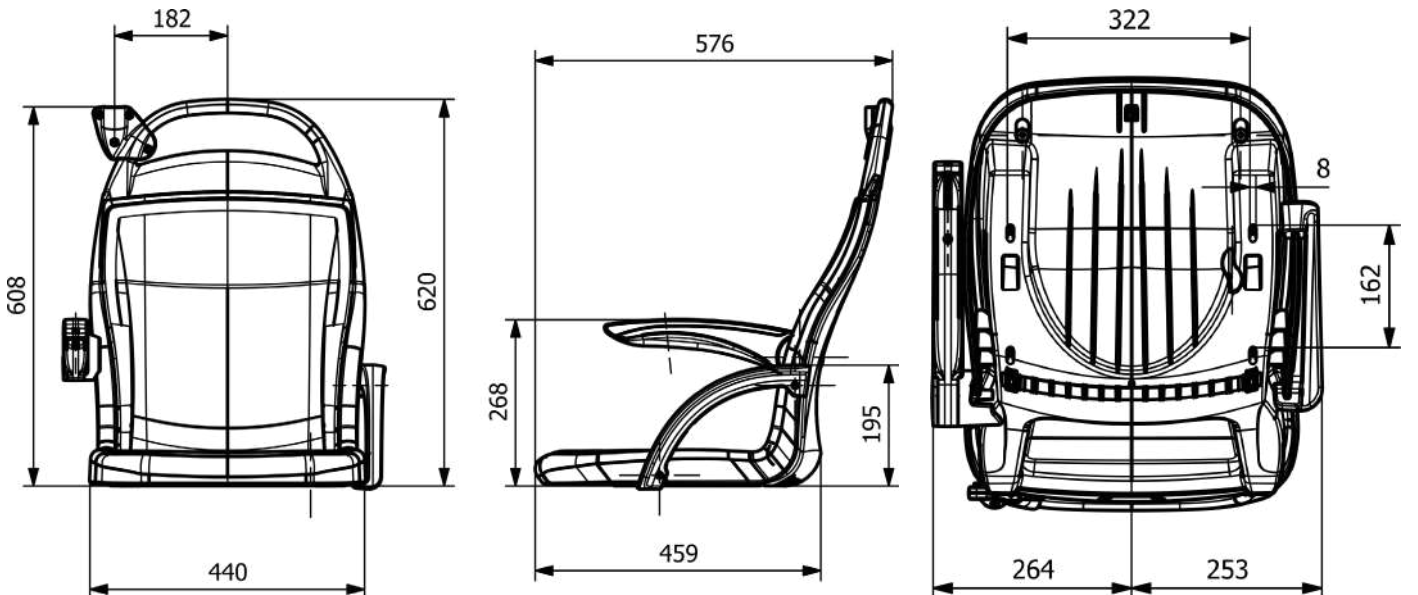

## Specifications

Stock No:	30002000
Stock Name:	Urban Bus Seat 440mm
Materials:	PPC
Weight:	4200 gr
Options:	Colors, upholstery, usb Heater
Homologated:	ECE-R118 FMVSS 302 CMVSS 302 EN 45545 - UIC564 - 2

## Technical Features

All the plastic material in this parts are in conformity with the specifications and REACH. All the physical loading tests are done. The seat has ECE R80.03 and UIC 566 regulations. In design we focused on creating robust, ergonomic, innovative, compact plastic seat.

30004000

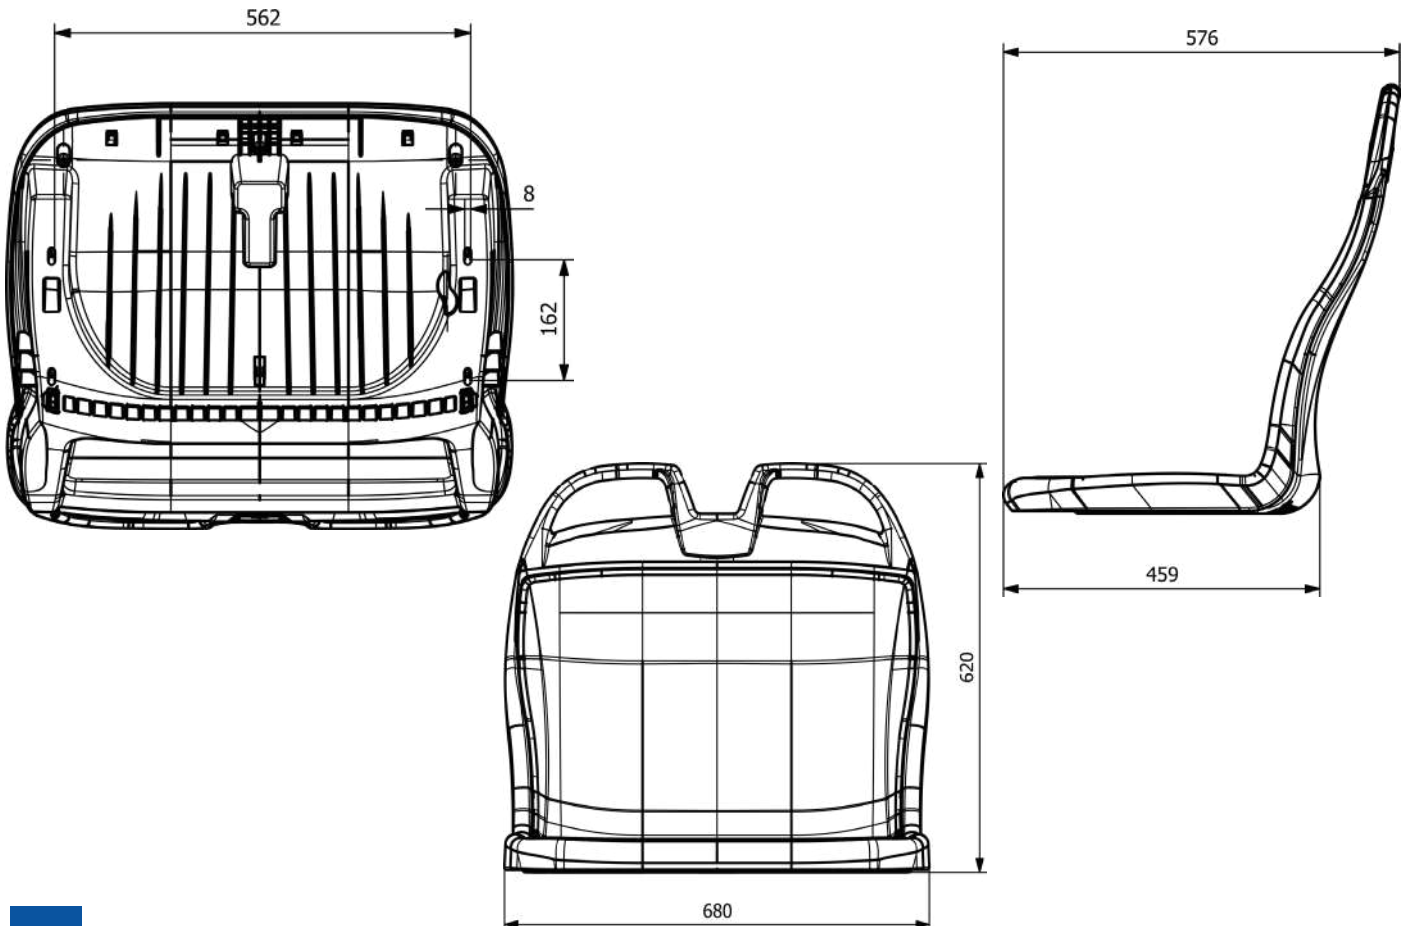

## Specifications

Stock No:	30004000
Stock Name:	Jumbo Seat 680mm
Materials:	PPC
Weight:	6040 gr
Options:	Colors, upholstery, usb Heater
Homologated:	ECE-R118 - FMVSS 302 CMVSS 302 EN 45545 UIC564- 2

## Technical Features

All the plastic material in this parts are in conformity with the specifications and REACH. All the physical loading tests are done. The seat has ECE R80.03 regulation. In design we focused on creating robust, ergonomic, innovative, compact plastic seat.

# SEAT AND INTERIOR PARTS

# 60000080

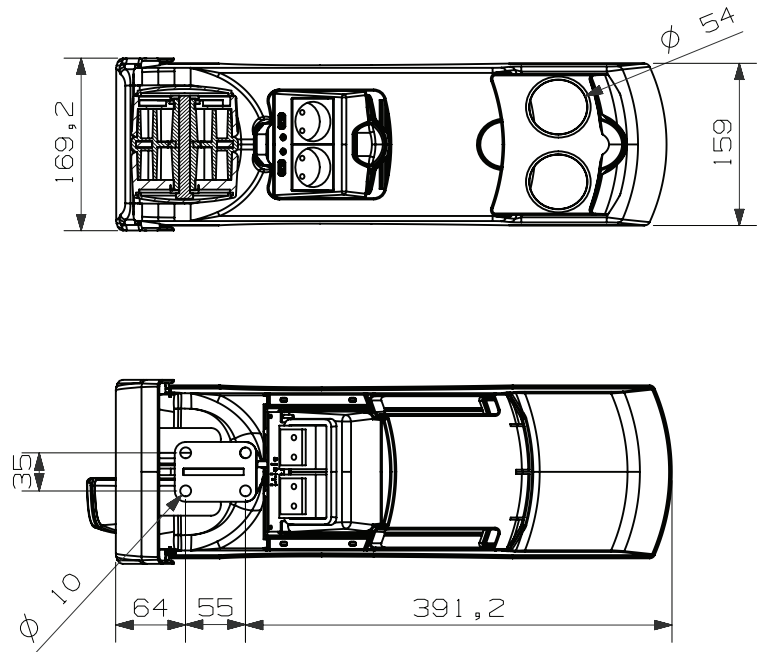

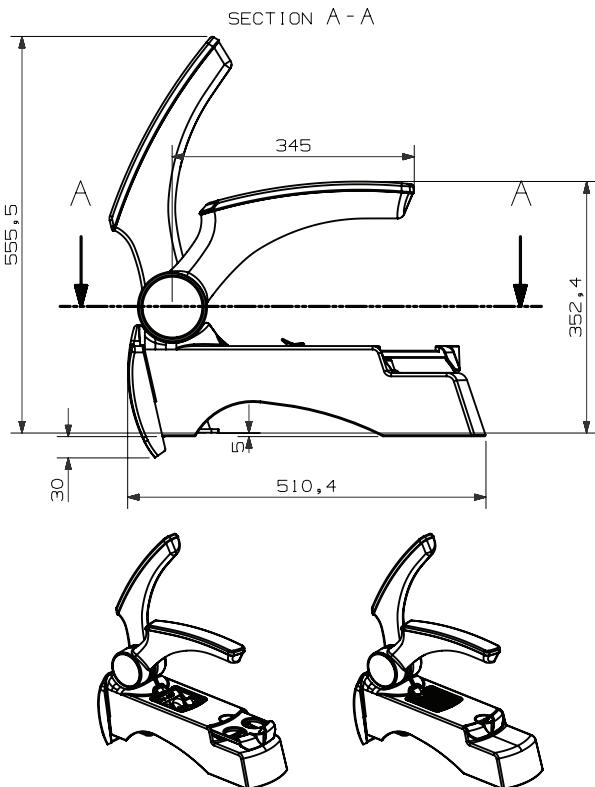

## Specifications

Stock No:	60000080
Stock Name:	Console
Materials:	PA6 %30, ABS
Weight:	2300 gr
Options:	Colors
Homologated:	ECE-R118
	FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this parts are in conformity with the specifications and REACH. All the horizontal and vertical loading tests, fatigue tests are done. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be done according to the customer desires if the minimum order quantity is OK.

400000009

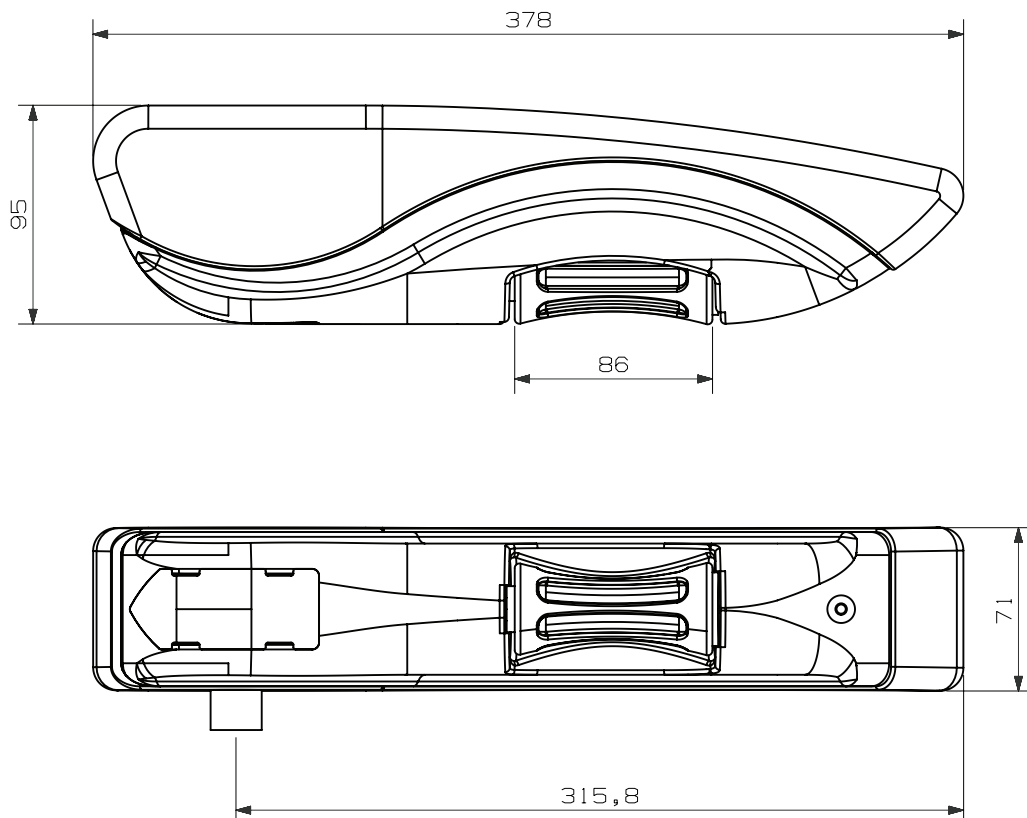

## Specifications

Stock No:	400000009
Stock Name:	Driver Armrest
Materials:	PA6 %30, PU
Weight:	790 gr
Options:	Colors
Homologated:	ECE-R118
	FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this parts are in conformity with the specifications and REACH. All the horizontal and vertical loading tests, fatigue tests are done. In design we focused on creating robust, ergonomic, innovative, compact products.

600000001

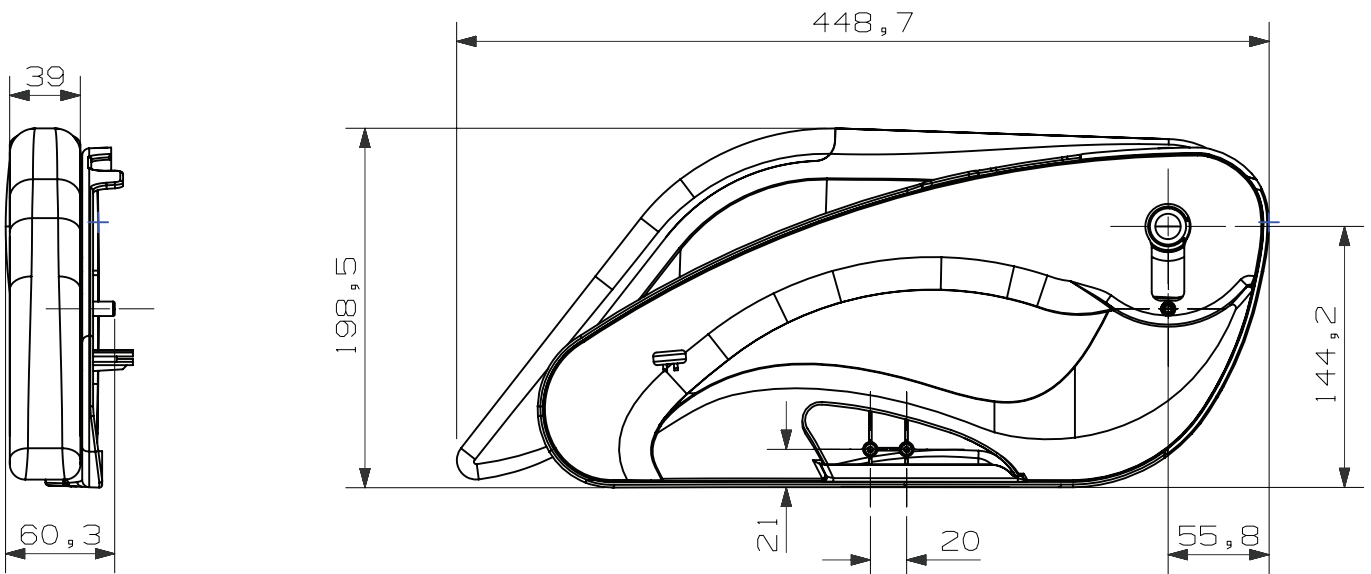

## Specifications

Stock No:	600000001
Stock Name:	Soft Armrest
Materials:	PPC, PA6 %30
Weight:	1130 gr
Options:	Colors
Homologated:	ECE-R118
	FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this parts are in conformity with the specifications and REACH. All the horizontal and vertical loading tests, fatigue tests are done. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be done according to the customer desires if the minimum order quantity is OK. The armrests are generally optional according to the colors, buttons.

60000027

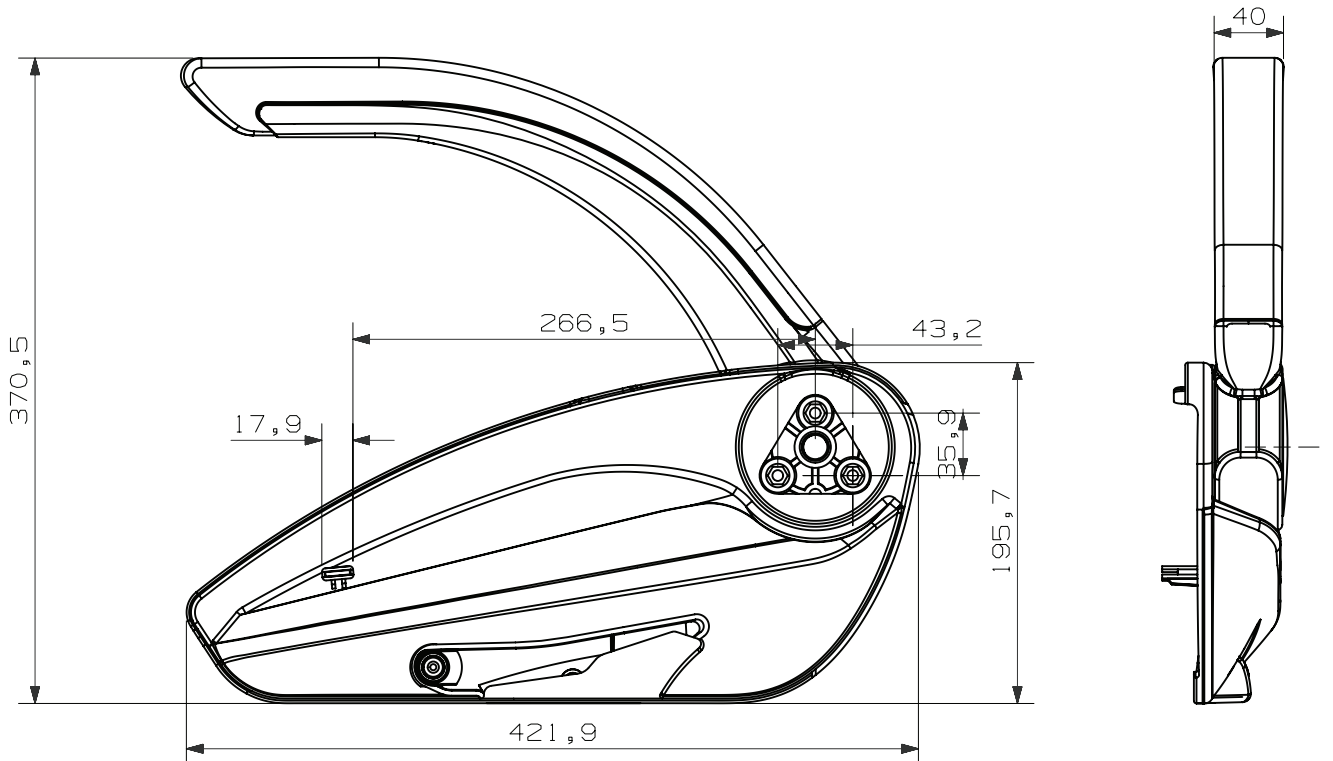

## Specifications

Stock No:	60000027
Stock Name:	Kayra Armrest
Materials:	PPC, PA6 %30
Weight:	1100 gr
Options:	Colors
Homologated:	ECE-R118
	FMVSS 302 - CMVSS 302

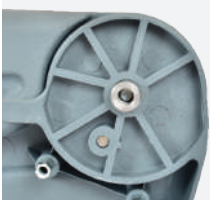

## Technical Features

All the plastic materials in this parts are in conformity with the specifications and REACH. All the horizontal and vertical loading tests, fatigue tests are done. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be done according to the customer desires if the minimum order quantity is OK. The armrests are generally optional according to the colors, buttons.

30000070

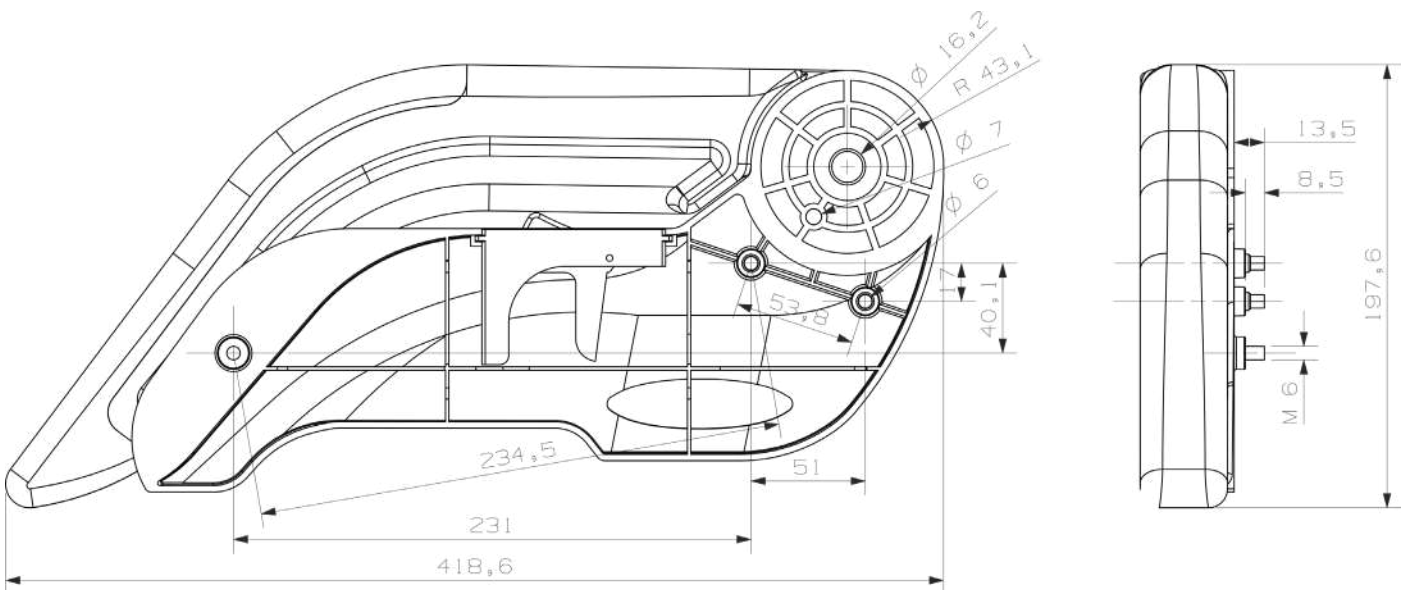

## Specifications

Stock No:	30000070
Stock Name:	Galaksi[2] M Armrest
Materials:	PA6 %30
Weight:	1090 gr
Options:	Colors, Recliner / Fix
Homologated:	ECE-R118
	FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this parts are in conformity with the specifications and REACH. All the horizontal and vertical loading tests, fatigue tests are done. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be done according to the customer desires if the minimum order quantity is OK. The armrests are generally optional according to the colors, buttons.

30000066

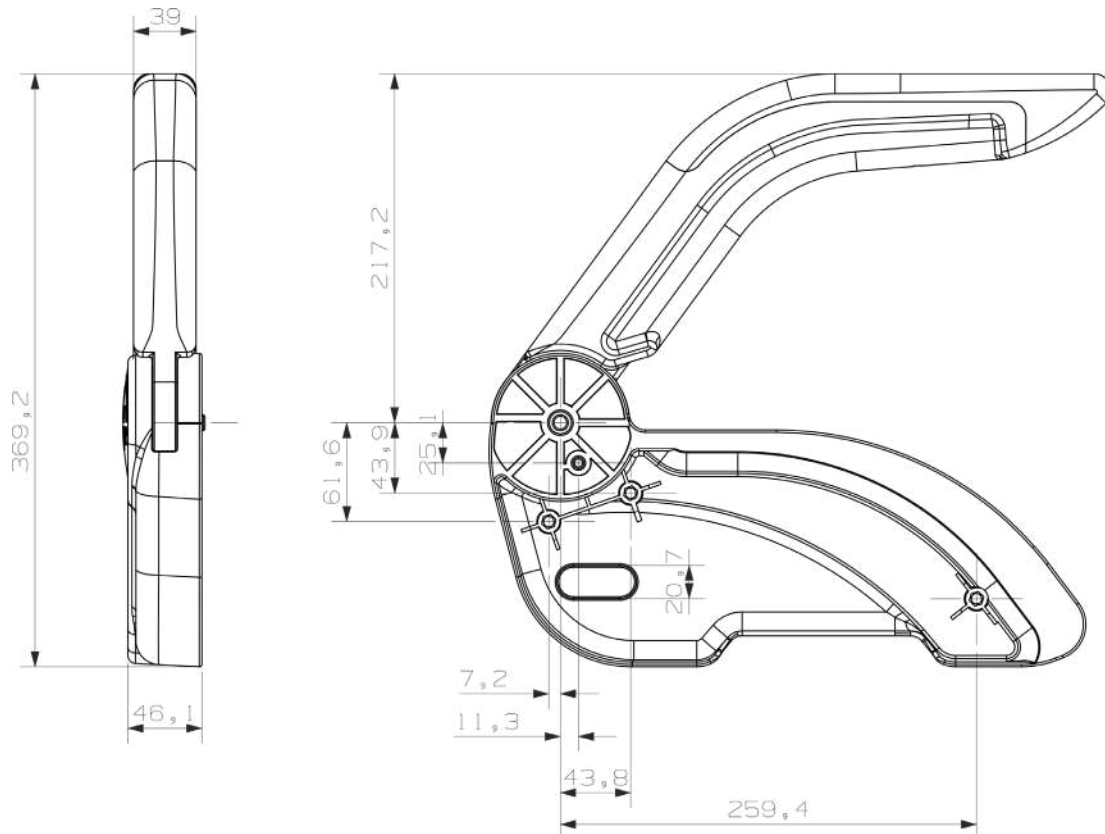

## Specifications

Stock No:	30000066
Stock Name:	Galaksi (1) L Armrest
Materials:	PA6 %30
Weight:	1152 gr
Options:	Colors, Recliner / Fix
Homologated:	ECE-R118
	FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this parts are in conformity with the specifications and REACH. All the horizontal and vertical loading tests, fatigue tests are done. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be done according to the customer desires if the minimum order quantity is OK.

30000024

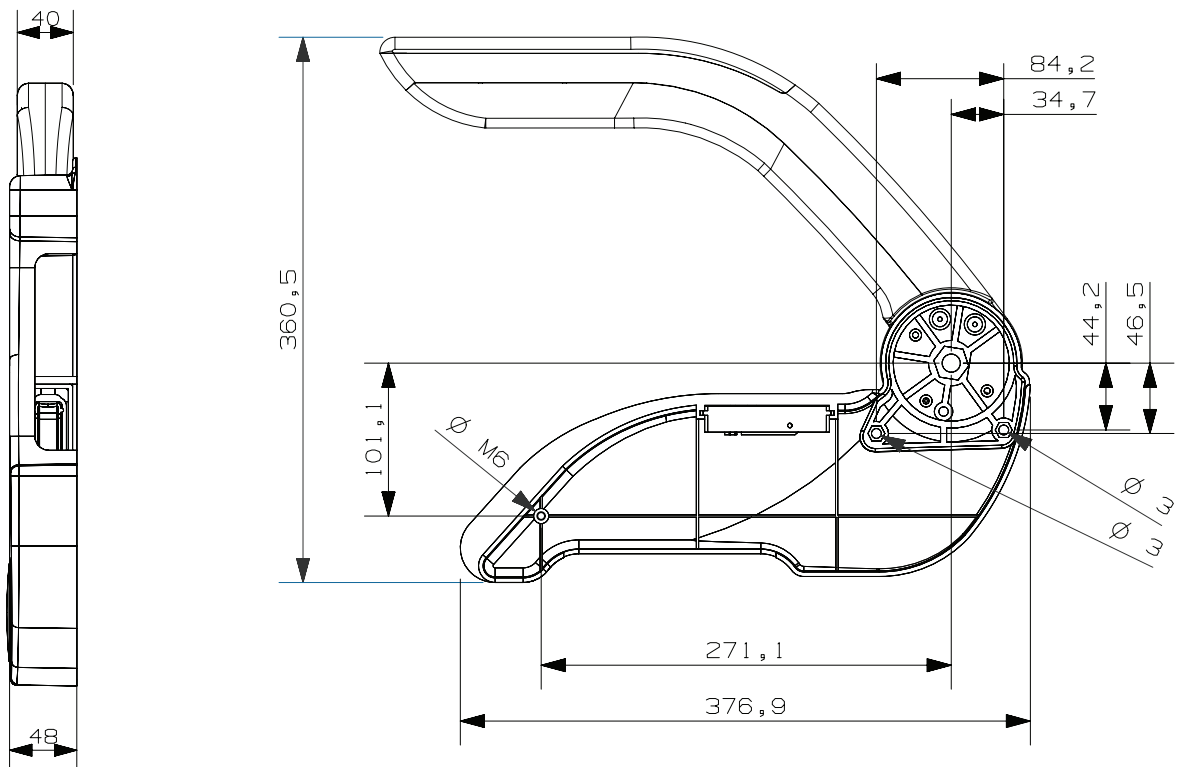

## Specifications

Stock No:	30000024
Stock Name:	Ern Armrest
Materials:	PA6 %30
Weight:	1375 gr
Options:	Colors, Recliner / Fix
Homologated:	ECE-R118
	FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this parts are in conformity with the specifications and REACH. All the horizontal and vertical loading tests, fatigue tests are done. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be done according to the customer desires if the minimum order quantity is OK. The armrests are generally optional according to the colors, buttons.

30000256

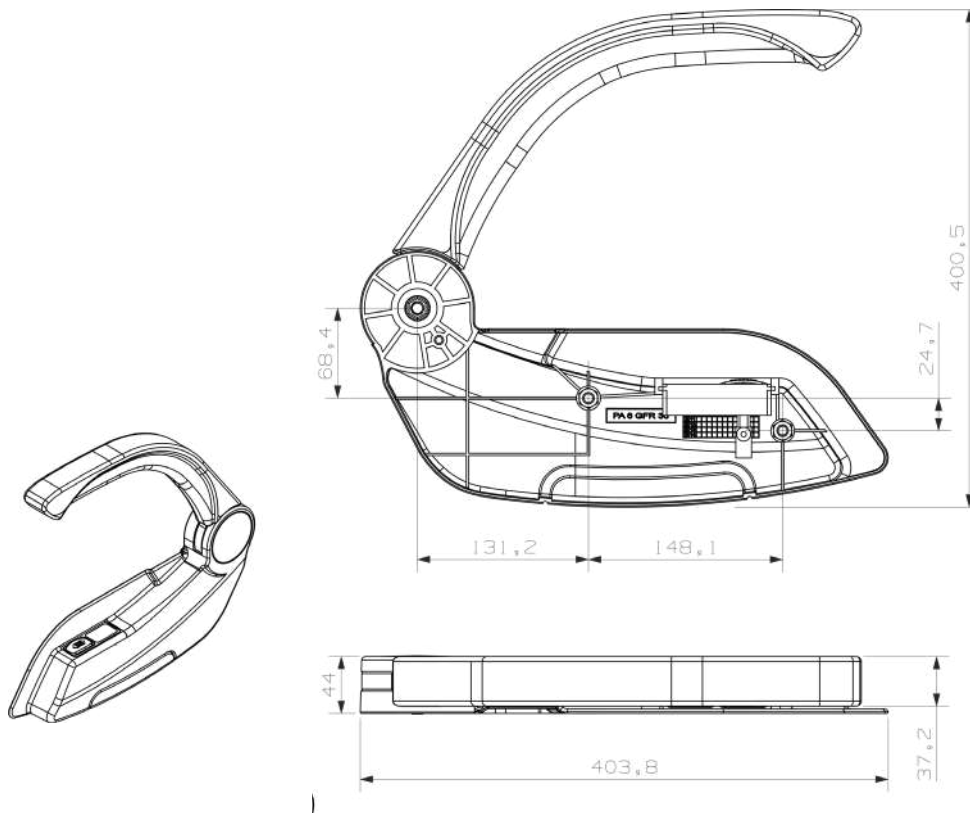

## Specifications

Stock No:	30000256
Stock Name:	AKD Armrest
Weight:	1683 gr
Materials:	PA6 %30
Options:	Colors
Homologated:	ECE-R118
	FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this parts are in conformity with the specifications and REACH. All the horizontal and vertical loading tests, fatigue tests are done. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be done according to the customer desires if the minimum order quantity is OK. The armrests are generally optional according to the colors, buttons.

30000011

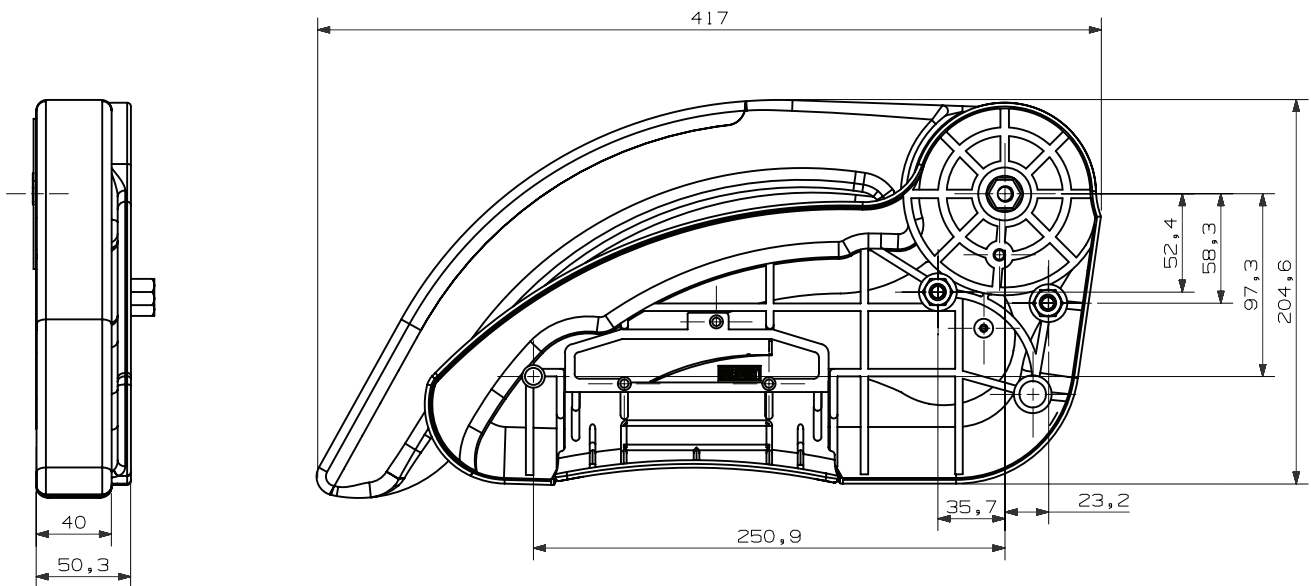

## Specifications

Stock No:	30000011
Stock Name:	Yıldız Armrest
Materials:	PPH %30
Weight:	1670 gr
Options:	Colors
Homologated:	ECE-R118
	FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this parts are in conformity with the specifications and REACH. All the horizontal and vertical loading tests, fatigue tests are done. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be done according to the customer desires if the minimum order quantity is OK. The armrests are generally optional according to the colors, buttons.

60000019

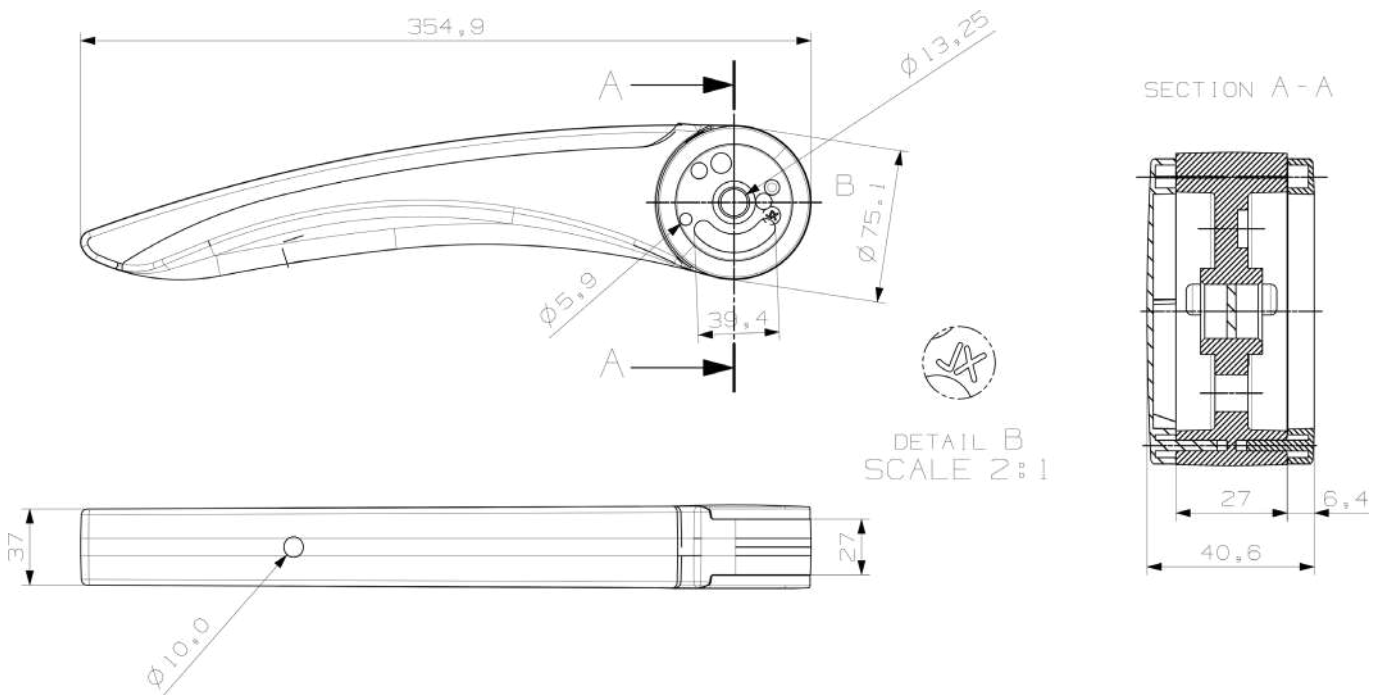

## Specifications

Stock No:	60000019
Stock Name:	Hostes Guide Armrest
Materials:	PA6 %30
Weight:	430 gr
Options:	Colors
Homologated:	ECE-R118
	FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this parts are in conformity with the specifications and REACH. All the horizontal and vertical loading tests, fatigue tests are done. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be done according to the customer desires if the minimum order quantity is OK.

30000318

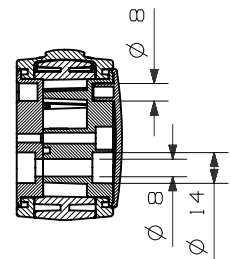

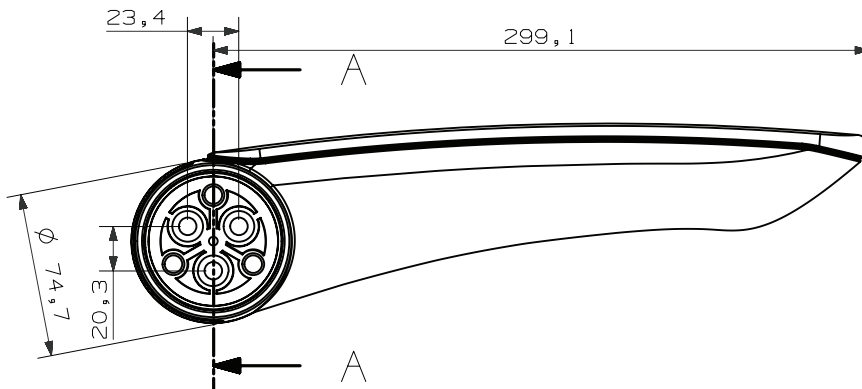

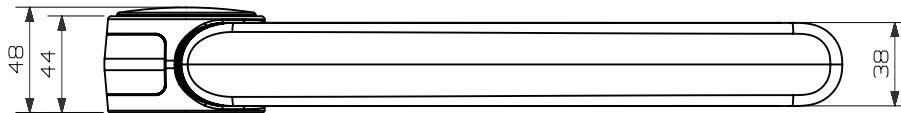

## Specifications

Stock No:	30000318
Stock Name:	Tuğra Guide Armrest
Materials:	PA6 %30
Weight:	425 gr
Options:	Colors
Homologated:	ECE-R118
	FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this parts are in conformity with the specifications and REACH. All the horizontal and vertical loading tests, fatigue tests are done. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be done according to the customer desires if the minimum order quantity is OK.

SECTION A - A

30000168

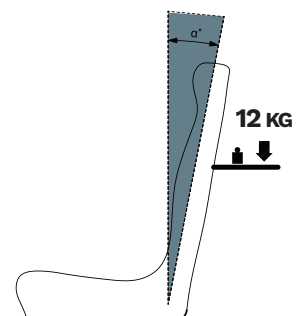

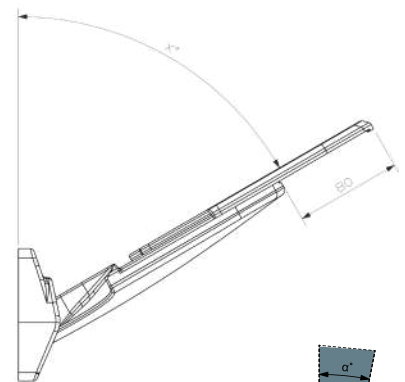

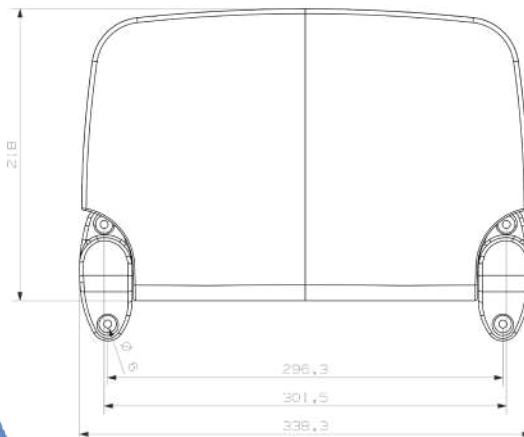

## Specifications

Stock No:	30000168
Stock Name:	Slide Able Table
Materials:	ABS
Weight:	913gr
Options:	Colors, Serigraphy Mat\ Glossy
Homologated:	ECE-R118 EN 45545 FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this part are in conformity with the specifications and REACH. The vertical loading tests, fatigue tests are done. In design we focused on creating robust, ergonomic, innovative, compact products.

# 30000655

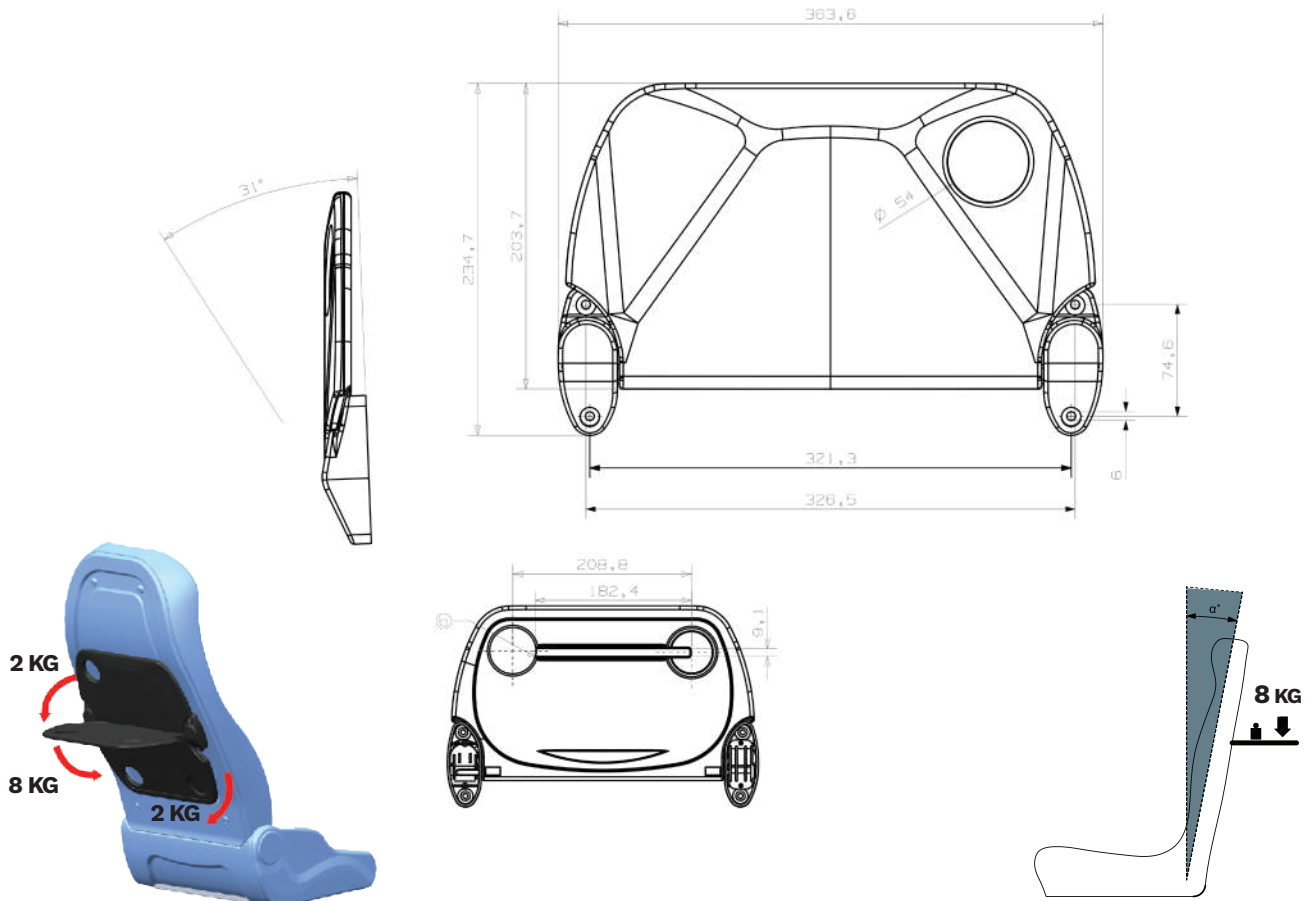

## Specifications

Stock No:	30000655
Stock Name:	PPC Table With Ipad Nest
Materials:	PPC
Weight:	461 gr
Options:	Colors, angles 65°/70°/90°
Homologated:	ECE-R118 EN 45545
	FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this part are in conformity with the specifications and REACH. The vertical loading tests, fatigue tests are done. In design we focused on creating robust, ergonomic, innovative, compact products.

30000095

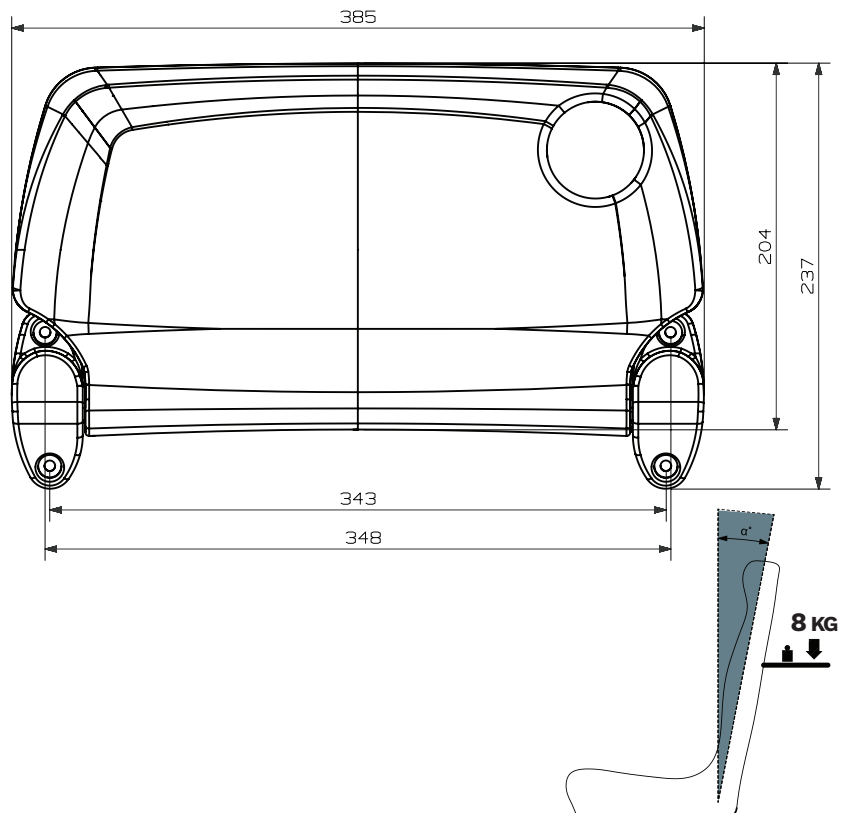

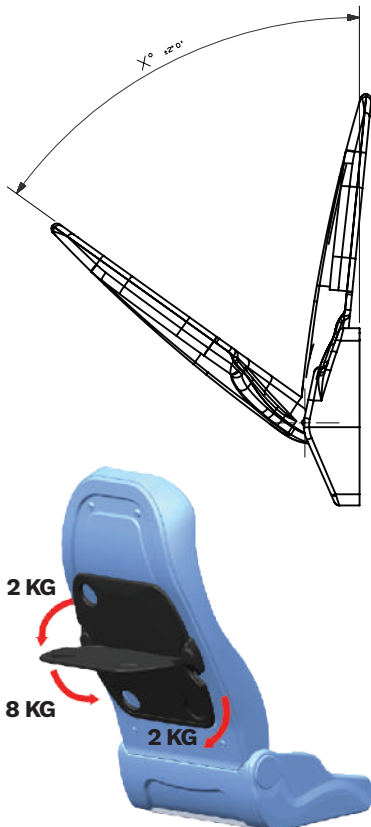

## Specifications

Stock No:	30000095
Stock Name:	Airplane Table
Materials:	ABS
Weight:	670 gr
Options:	Colors, serigraphy angles 60°
Homologated:	ECE-R118 EN 45545 FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this part are in conformity with the specifications and REACH. The vertical loading tests, fatigue tests are done. In design we focused on creating robust, ergonomic, innovative, compact products.

# 30000136

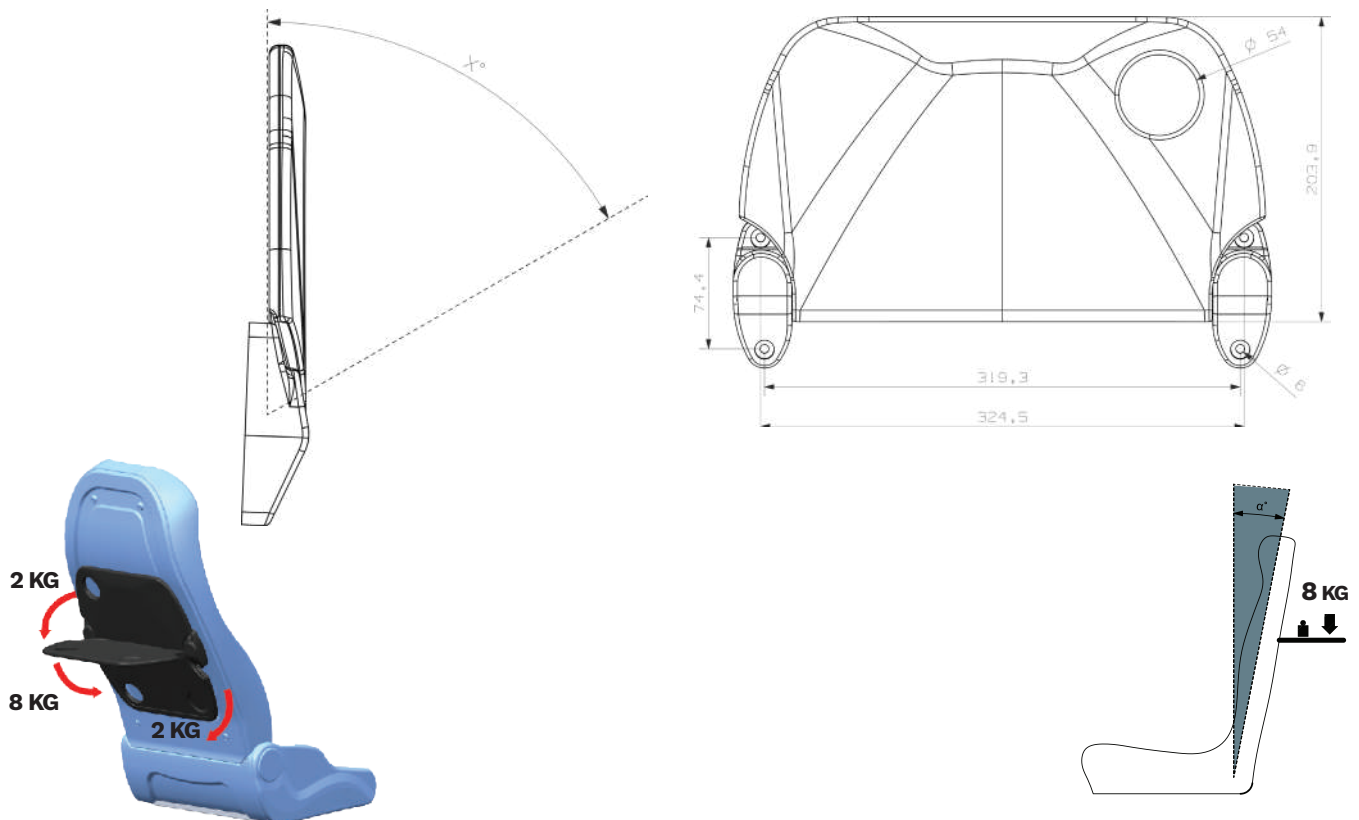

## Specifications

Stock No:	30000136
Stock Name:	Classic Table
Materials:	PP
Weight:	485 gr
Options:	Colors, angles 65°/70°/90°
Homologated:	ECE-R118 EN 45545
	FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this part are in conformity with the specifications and REACH. The vertical loading tests, fatigue tests are done. In design we focused on creating robust, ergonomic, innovative, compact products.

30000026

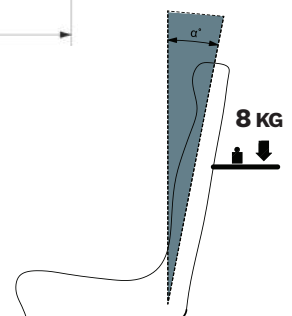

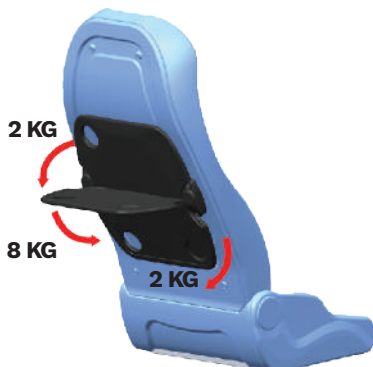

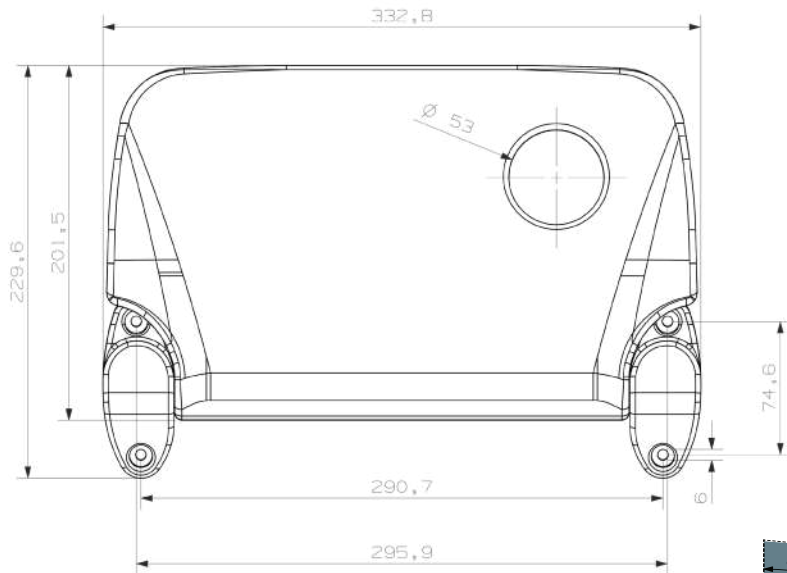

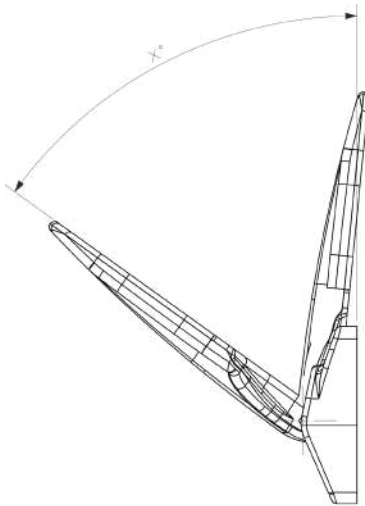

## Specifications

Stock No:	30000026
Stock Name:	Esila Table
Materials:	ABS
Weight:	500 gr
Options:	Colors, serigraphy angles 59°/65°
Homologated:	ECE-R118 EN 45545 FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this part are in conformity with the specifications and REACH. The vertical loading tests, fatigue tests are done. In design we focused on creating robust, ergonomic, innovative, compact products.

# 30000399

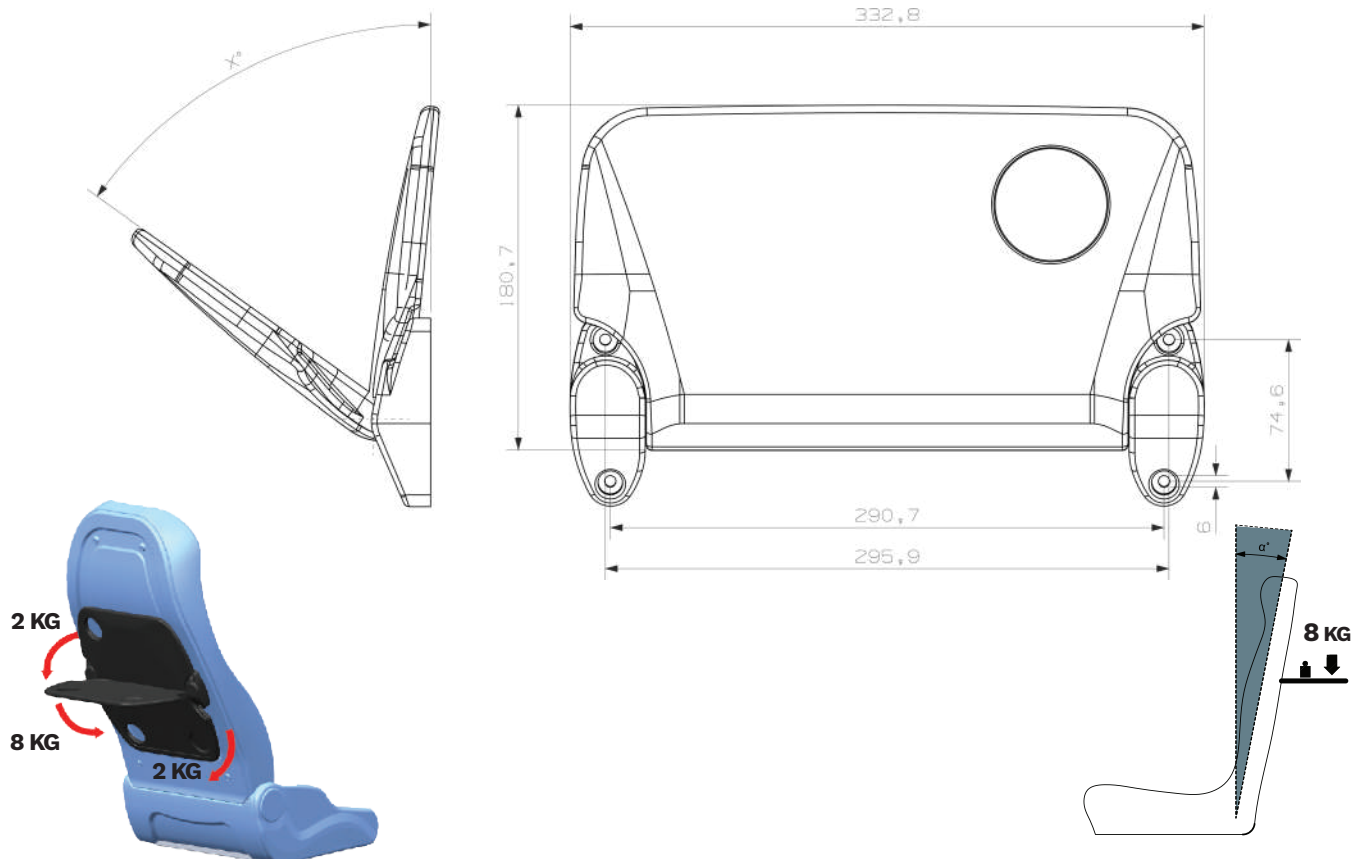

## Specifications

Stock No:	30000399
Stock Name:	Korhan Table
Materials:	ABS
Weight:	490 gr
Options:	Colors, serigraphy angles 65°/70°/90°
Homologated:	ECE-R118 EN 45545 FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this part are in conformity with the specifications and REACH. The vertical loading tests, fatigue tests are done. In design we focused on creating robust, ergonomic, innovative, compact products.

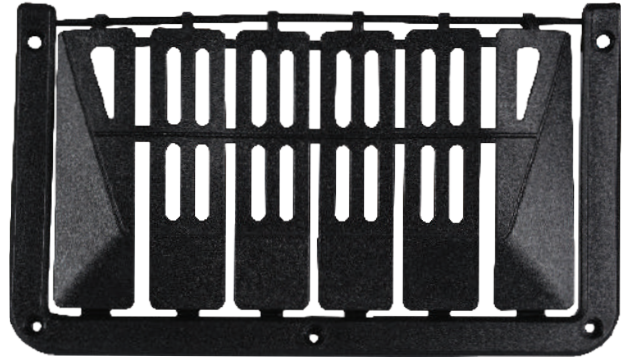

30000217

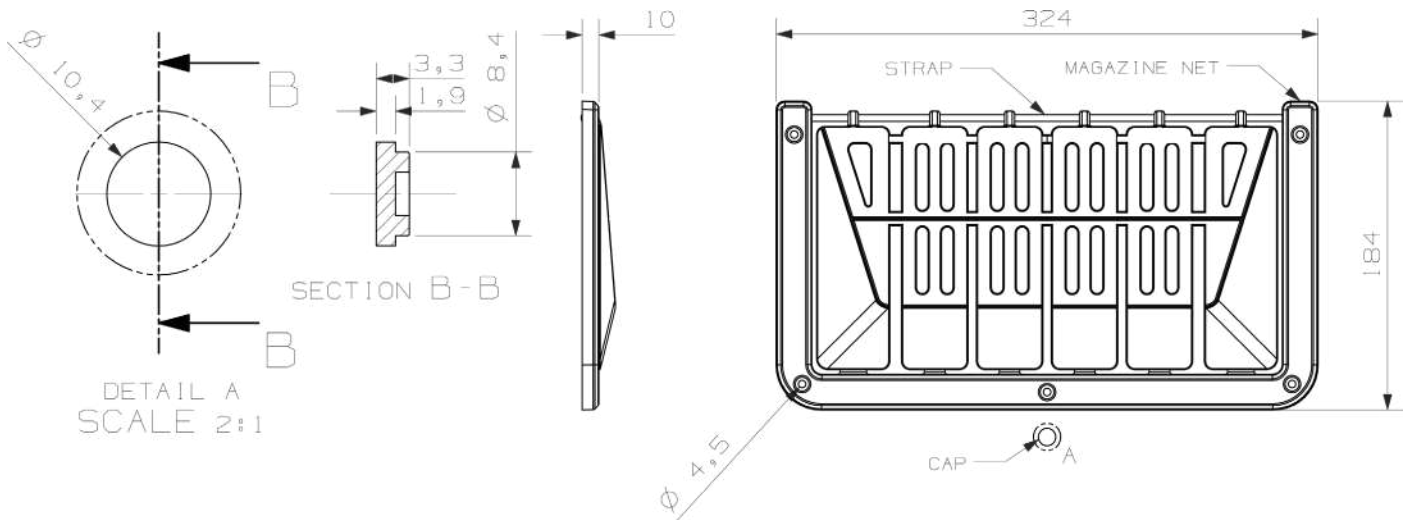

## Specifications

Stock No:	30000217
Stock Name:	Magazine Net 325 mm
Materials:	LDPE
Weight:	110 gr
Options:	Colors
Homologated:	ECE-R118
	FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this part are in conformity with the specifications and REACH. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be applied according to the customer request.

30000222

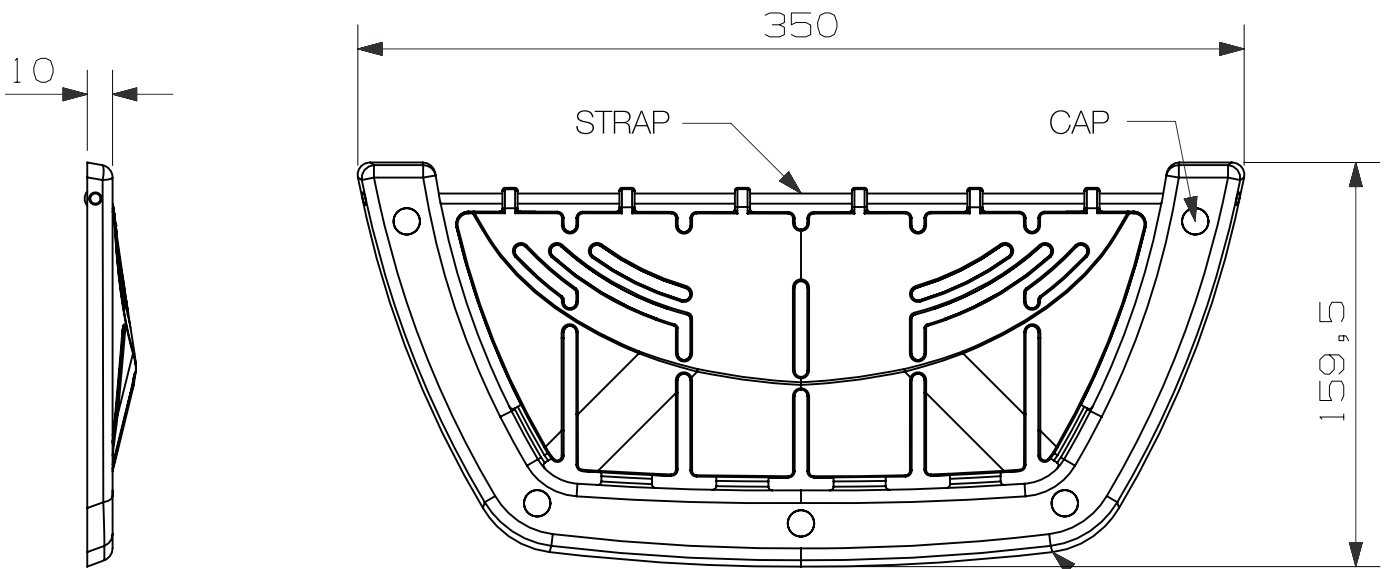

## Specifications

Stock No:	30000222
Stock Name:	Rehes Magazine Net
Materials:	LDPE
Weight:	110 gr
Options:	Colors
Homologated:	ECE-R118
	FMVSS 302 - CMVSS 302

## Technical Features

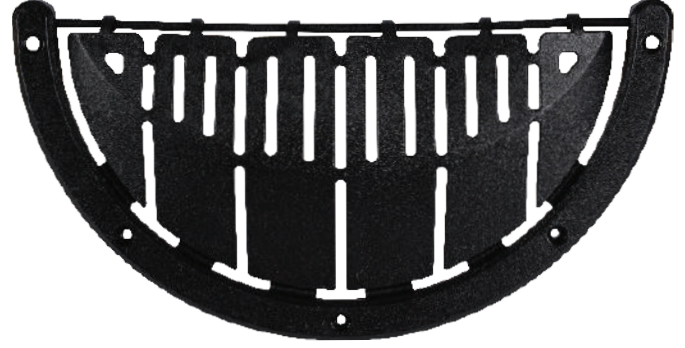

All the plastic materials in this part are in conformity with the specifications and REACH. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be applied according to the customer request.

30000212

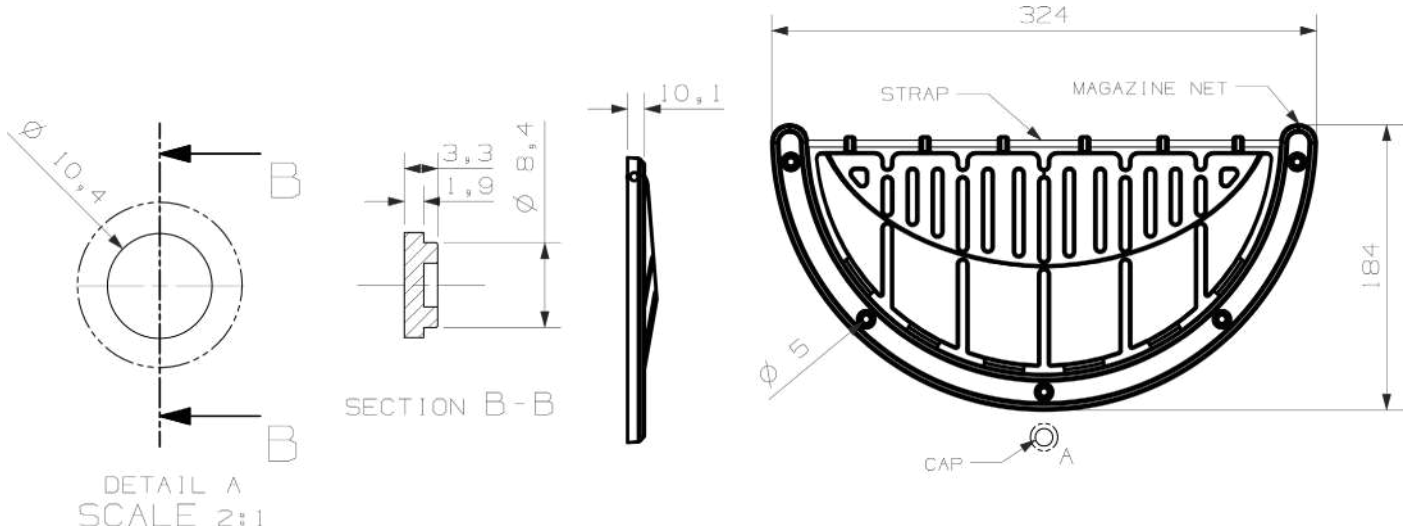

## Specifications

Stock No:	30000212
Stock Name:	Magazine Net Oval Pls
Materials:	LDPE
Weight:	85 gr
Options:	Colors
Homologated:	ECE-R118
	FMVSS 302 - CMVSS 302

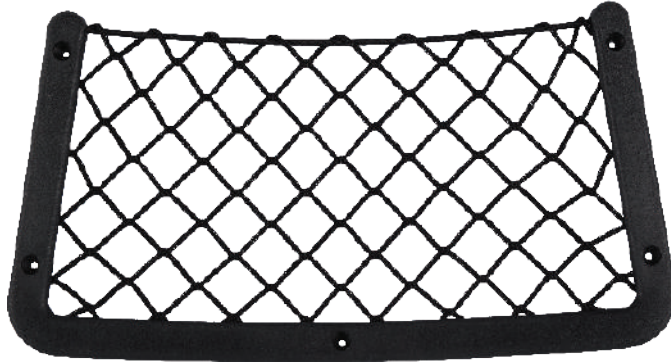

## Technical Features

All the plastic materials in this part are in conformity with the specifications and REACH. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be applied according to the customer request.

40000035

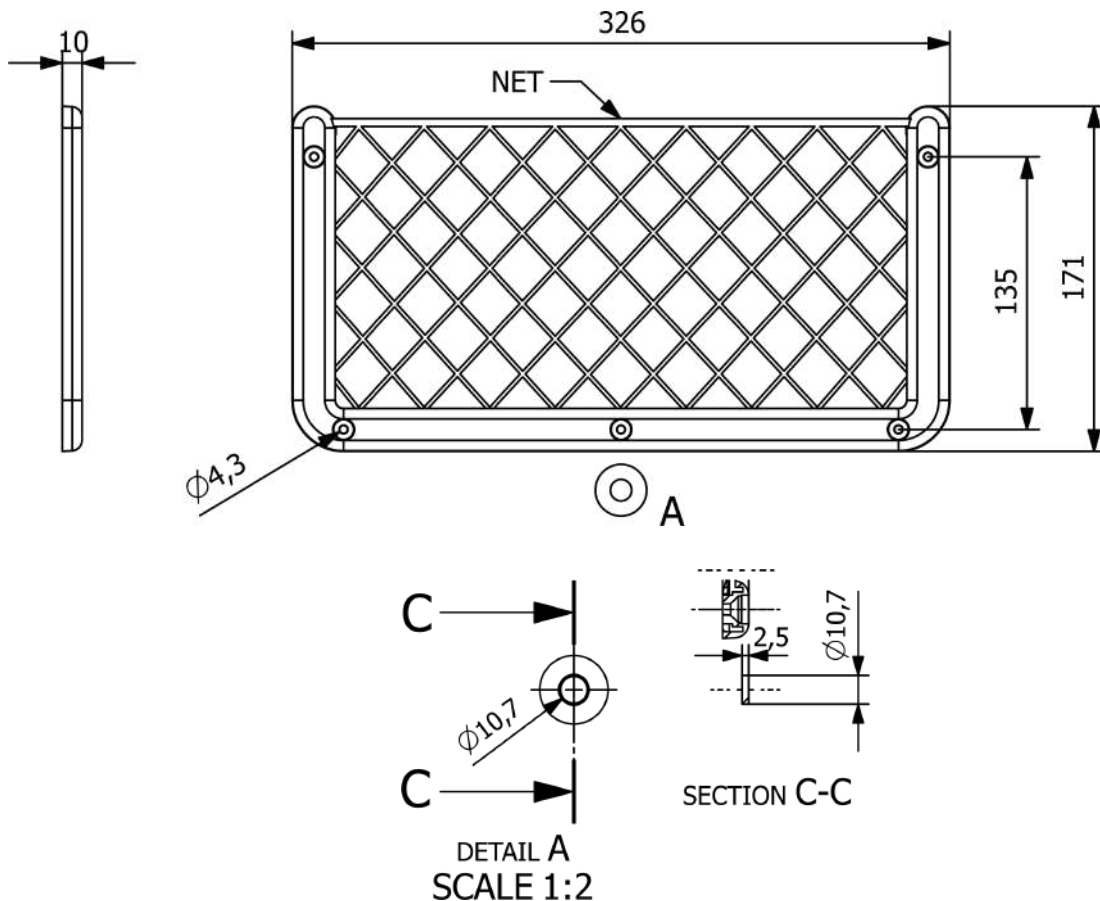

## Specifications

Stock No:	40000035
Stock Name:	Magazine Net
Materials:	PPC
Weight:	82 gr
Width:	325 mm & 360 mm
Options:	Colors
Homologated:	ECE-R118
	FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this part are in conformity with the specifications and REACH. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be applied according to the customer request.

40000034

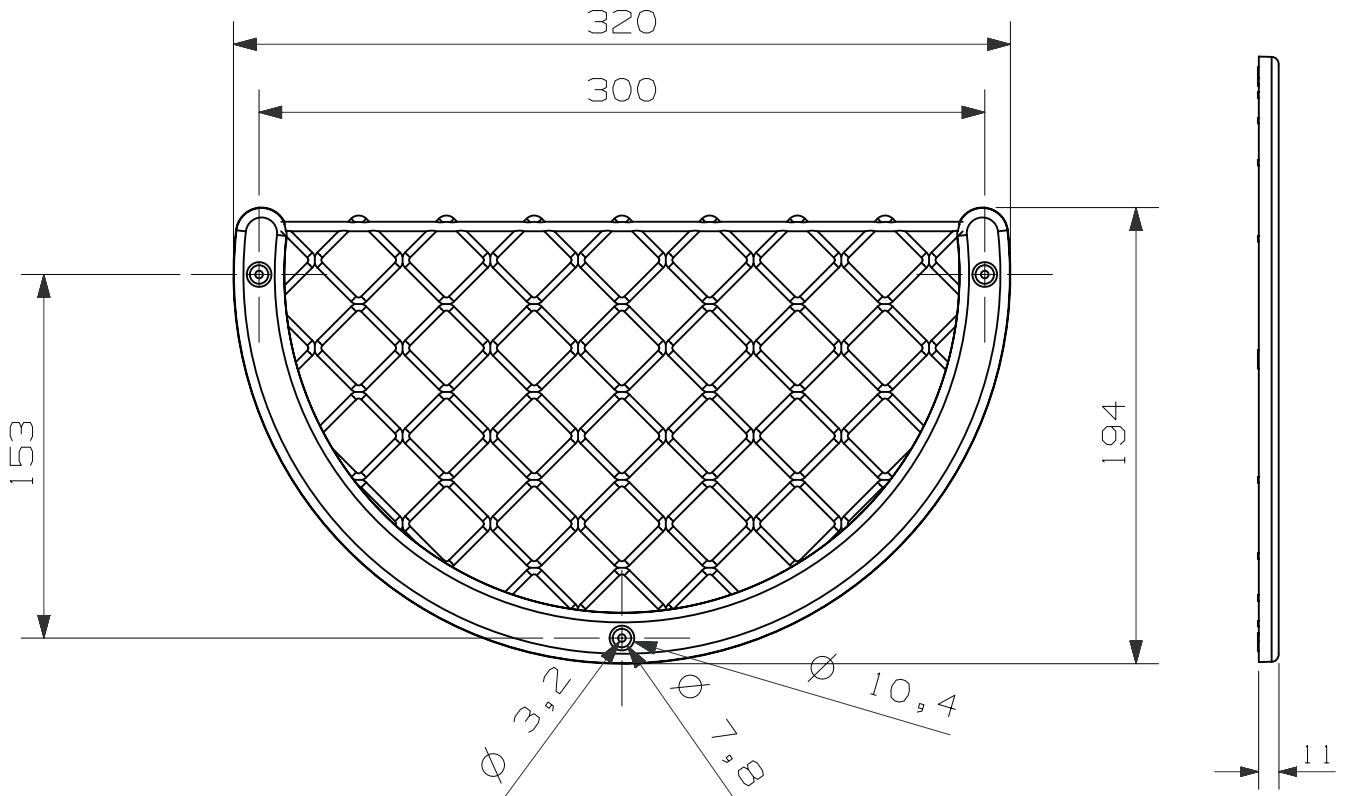

## Specifications

Stock No:	40000034
Stock Name:	Magazine Net Oval
Materials:	PPC
Weight:	85 gr

## Technical Features

30000128

## Specifications

Stock No:	30000128
Stock Name:	Recliner Lever
Materials:	PPC, Metal
Weight:	120 gr
Colors:	RAL 9005
Homologated:	ECE-R118
	FMVSS 302 - CMVSS 302

## Technical Features

30000129

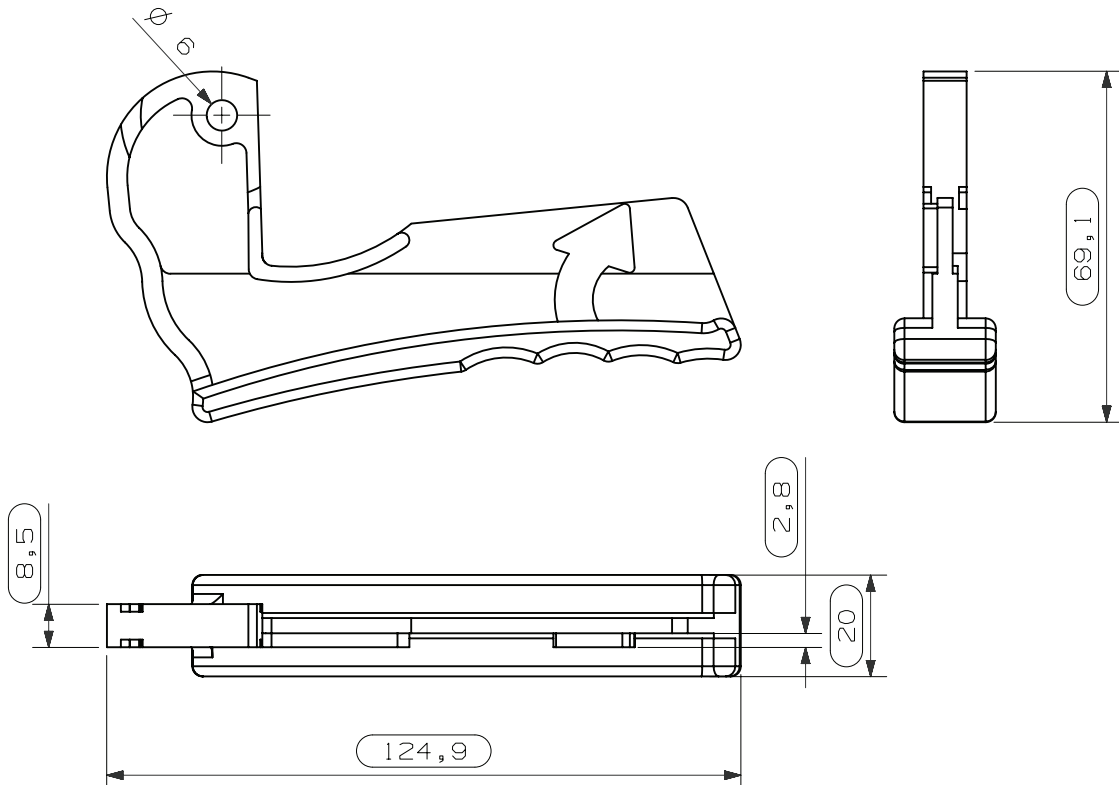

## Specifications

Stock No:	30000129
Stock Name:	Plastic Recliner Lever
Materials:	PA6
Weight:	42 gr
Options:	Colors
Homologated:	ECE-R118
	FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this part are in conformity with the specifications and REACH. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be applied according to the customer request.

400000006

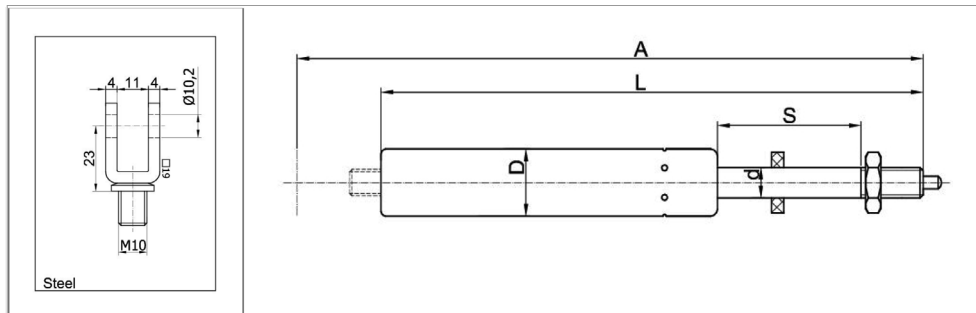

## Specifications

Stock No: 400000006  
 Stock Name: Gas Spring  
 Materials: Metal  
 Pressure (N): 500-600-700

## Technical Features

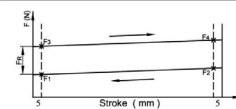

The gas springs have different pressures. We can supply different pressures according to the customer demands.

Type	Feature	d/D (mm)	A (mm)	S (mm)	F1 (N)
		Diameter	Open Length	Stroke	Force
<b>BL - Rod Pin</b>	<b>Rigid in Extention</b>	<b>1027</b>	<b>187 ±2</b>	<b>26 ±2</b>	<b>600</b> <sup>+60</sup> <sub>-30</sub>
Working Stroke - W	26	Tube Connection	1B2335.53	Rod Connection	None
Natural Length - L	164	Tube End	T170.101	Rod End	M10x1x20
Closed Length - C	161	Tube Material	Steel	Rod Material	Steel
Blind Stroke - E	-	Tube Surface	Painted*	Rod Coating	Nitrated

### Technical Instructions

- The gas spring should be installed with piston rod downwards for the best function and long durability.
- Piston rod should be protected from dirt, paint and damage.
- The gas spring should not be physically reworked or damaged.
- Warning markings must not be removed or scabbled.
- Function test is made with piston rod downwards.
- Drawing is not true to scale.
- Best Operating Temperature: -30C to +80C

# 30000403

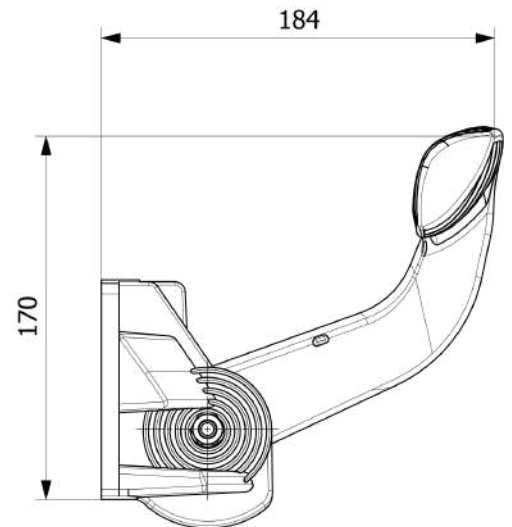

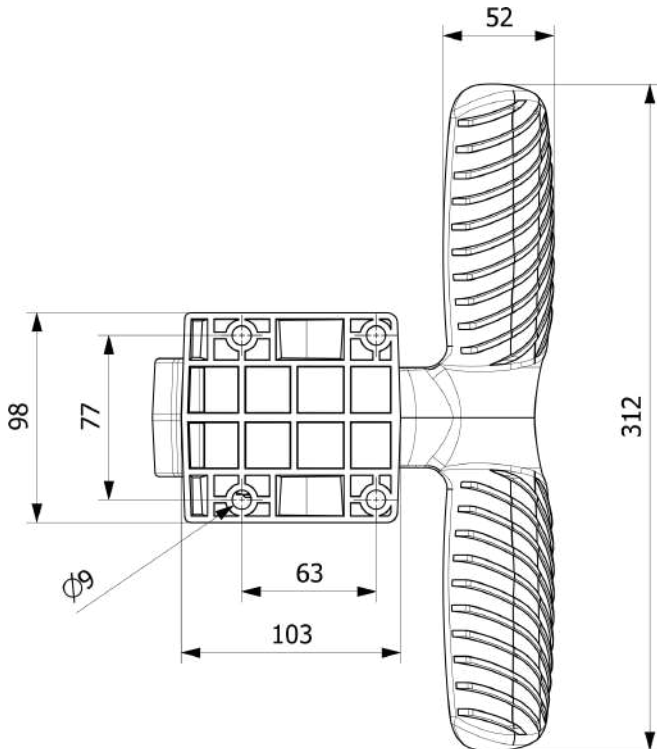

## Specifications

Stock No:	30000403
Stock Name:	Plastic Footrest 3p
Materials:	PA6 %30
Weight:	673 gr
Options:	2 or 3 Pos.; Stationary Colors
Homologated:	ECE-R118 EN 45545-2 FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this part are in conformity with the specifications and REACH. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be applied according to the customer request. All the static and fatigue test are done successfully.

30000154

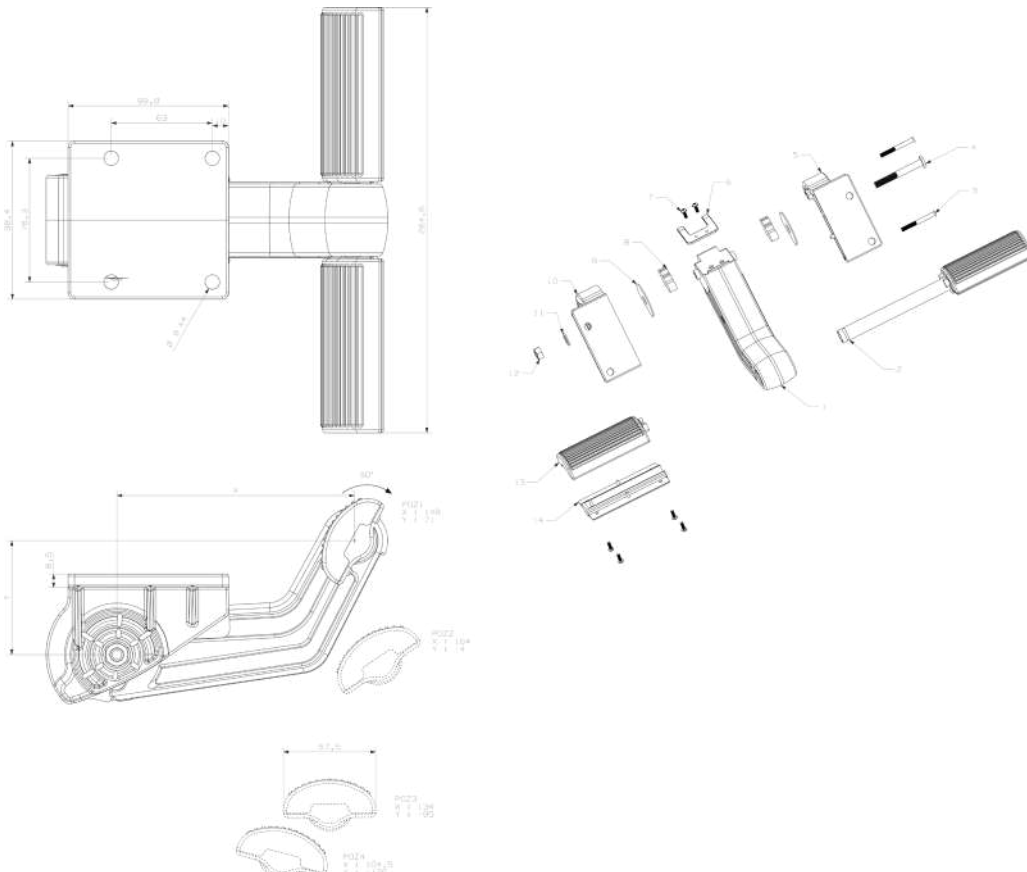

## Specifications

Stock No:	30000154
Stock Name:	Plastic Footrest
Materials:	PPH %30, PA6 %30
Weight:	890 gr
Options:	2 or 3 Pos.; Stationary
	Colors
Homologated:	ECE-R118 EN 45545-2
	FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this part are in conformity with the specifications and REACH. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be applied according to the customer request. All the static and fatigue test are done successfully.

40000010

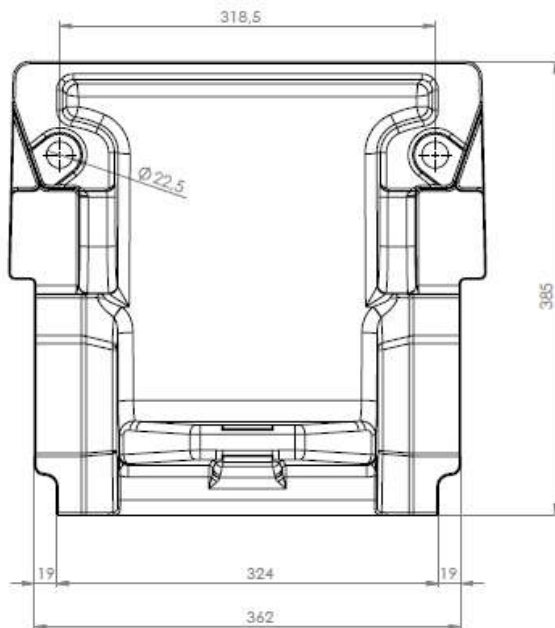

## Specifications

Stock No:	40000010
Stock Name:	Cushion Plastic
Materials:	PPC
Weight:	470 gr
Options:	Colors
Homologated:	ECE-R118
	FMVSS 302 - CMVSS 302

## Technical Features

All the plastic material in this parts are in conformity with the specifications and REACH.

30000584

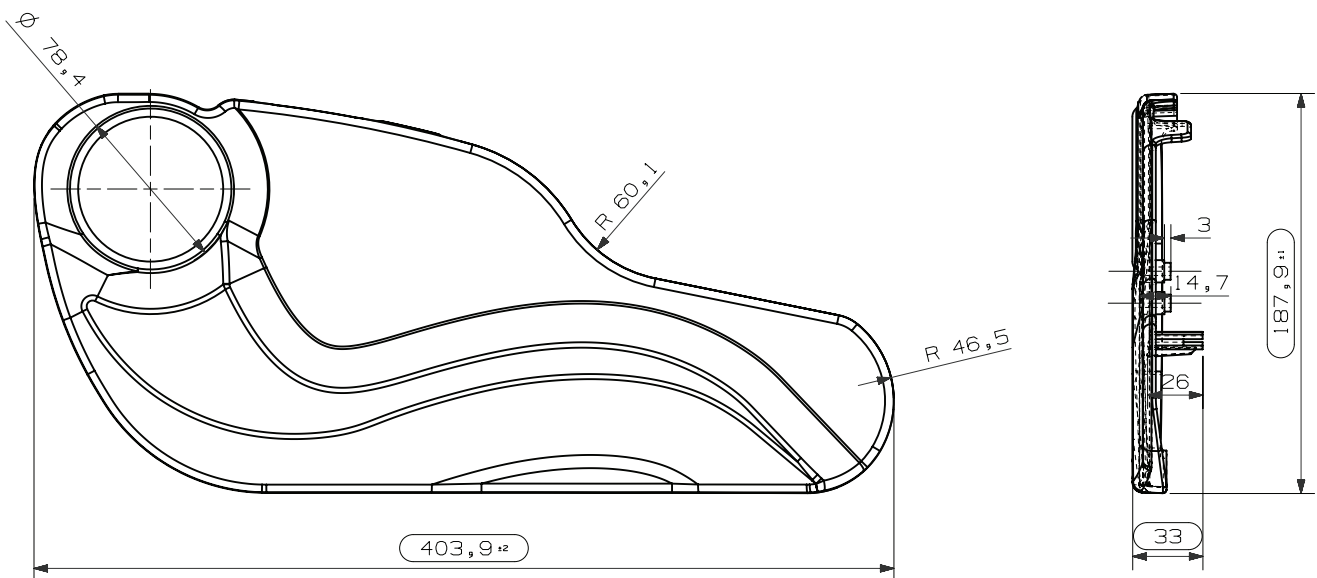

## Specifications

Stock No:	30000584
Stock Name:	Window Side Plastic
Materials:	PPC
Weight:	170 gr
Options:	Colors
Homologated:	ECE-R118
	FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this part are in conformity with the specifications and REACH. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be applied according to the customer request.

30000238

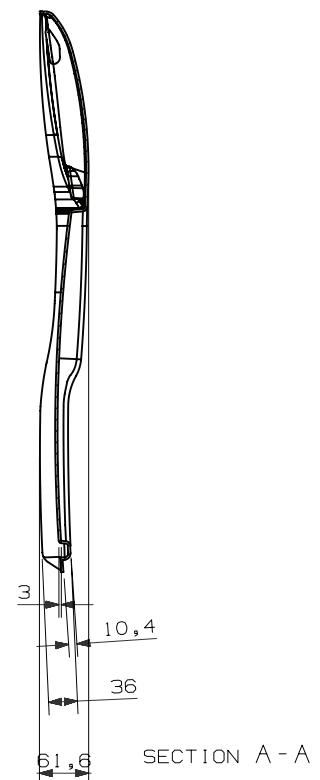

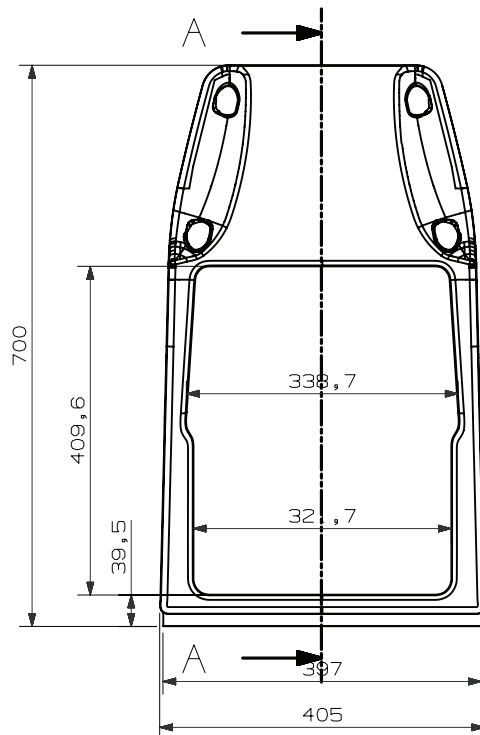

## Specifications

Stock No:	30000238
Stock Name:	YKSL Backrest Plastic
Materials:	PPC
Weight:	912 gr
Options:	Colors
Homologated:	ECE-R118
	FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this part are in conformity with the specifications and REACH. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be applied according to the customer request.

30000240

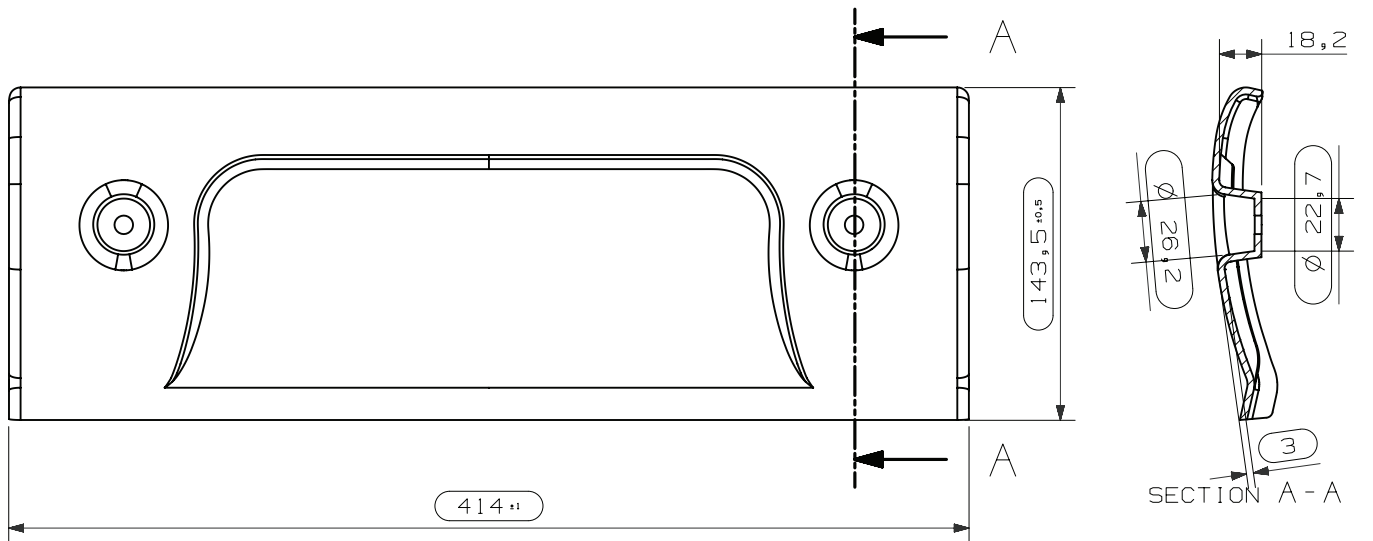

## Specifications

Stock No:	30000240
Stock Name:	YKSL Bottom Plastic
Materials:	PPC
Weight:	179 gr
Options:	Colors
Homologated:	ECE-R118
	FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this part are in conformity with the specifications and REACH. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be applied according to the customer request.

30000185

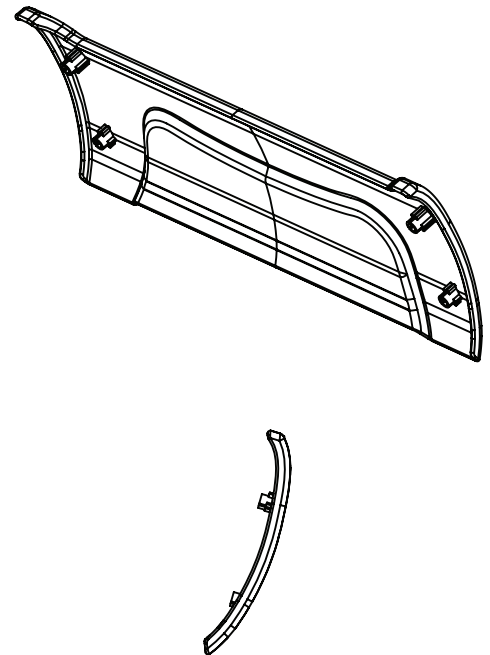

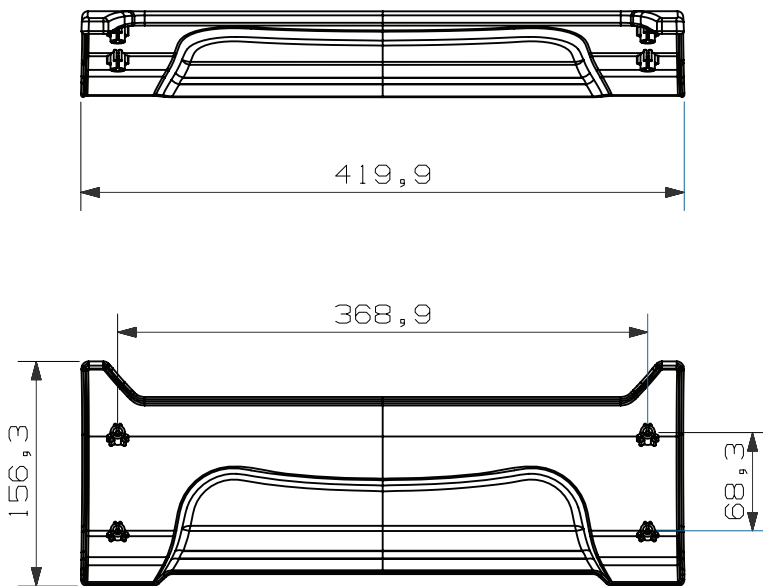

## Specifications

Stock No:	30000185
Stock Name:	Soft Bottom Plastic
Materials:	PPC
Weight:	172 gr
Options:	Colors
Homologated:	ECE-R118
	FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this part are in conformity with the specifications and REACH. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be applied according to the customer request.

30000044

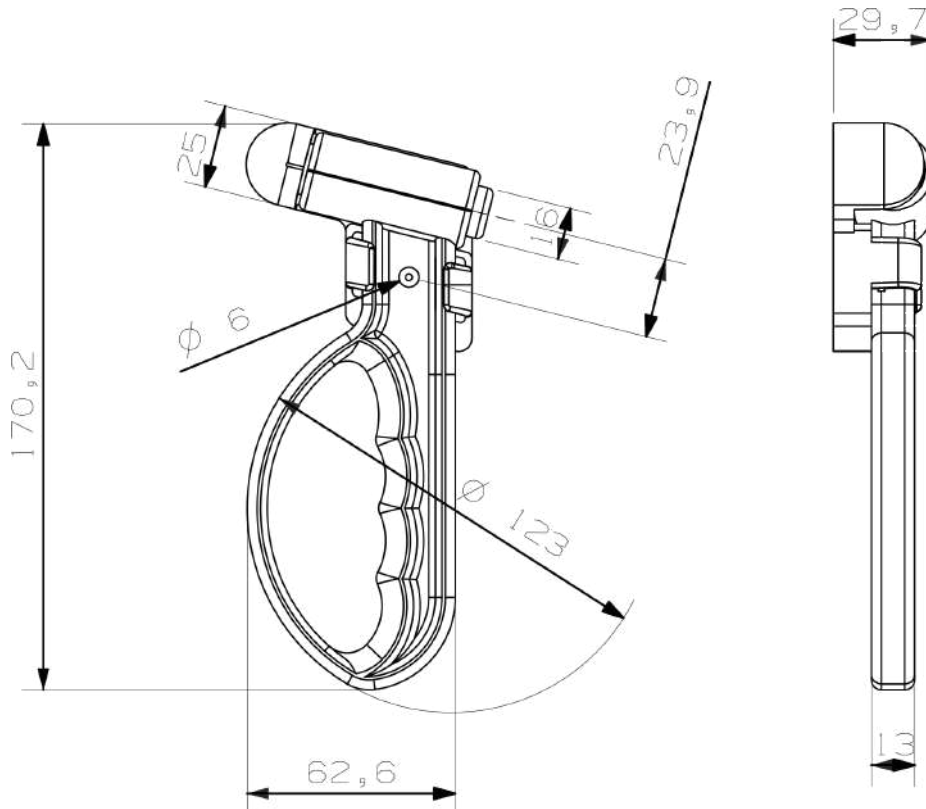

## Specifications

Stock No:	30000044
Stock Name:	New Emergency Hammer
Materials:	PPC
Weight:	190 gr
Options:	Colors
Homologated:	ECE-R118 EN 45545 FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this part are in conformity with the specifications and REACH. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be applied according to the customer request.

30000099

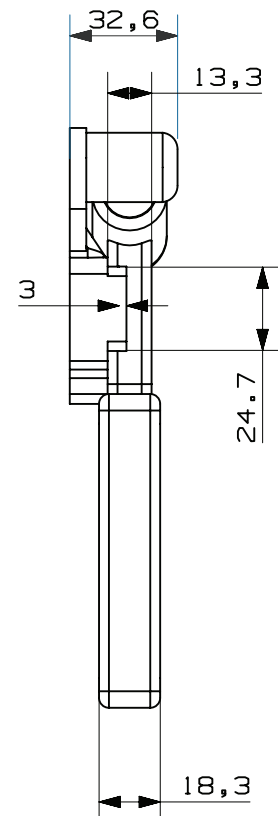

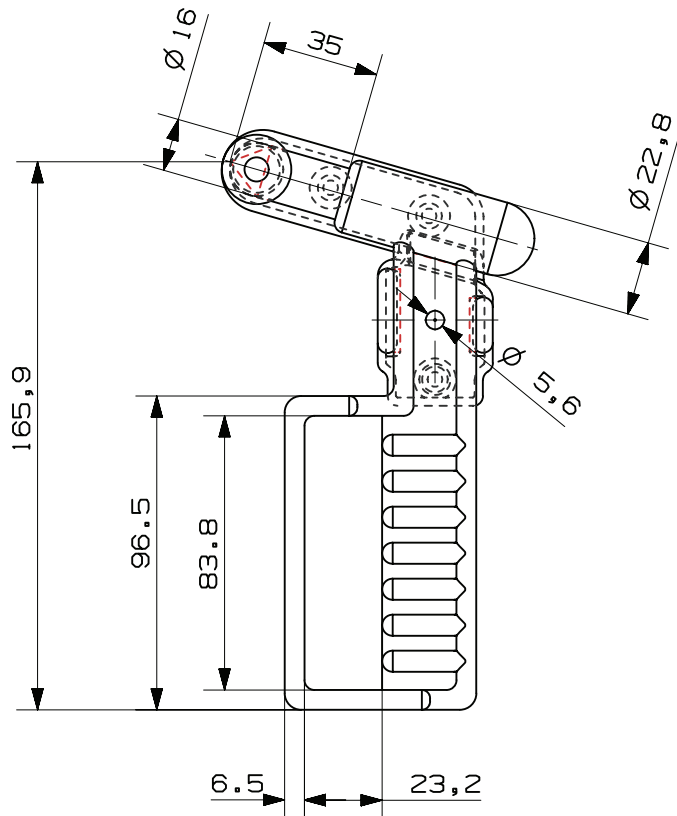

## Specifications

Stock No:	30000099
Stock Name:	Classic Emergency Hammer
Materials:	PPC
Weight:	160 gr
Options:	Colors
Homologated:	ECE-R118 EN 45545 FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this part are in conformity with the specifications and REACH. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be applied according to the customer request.

30000100

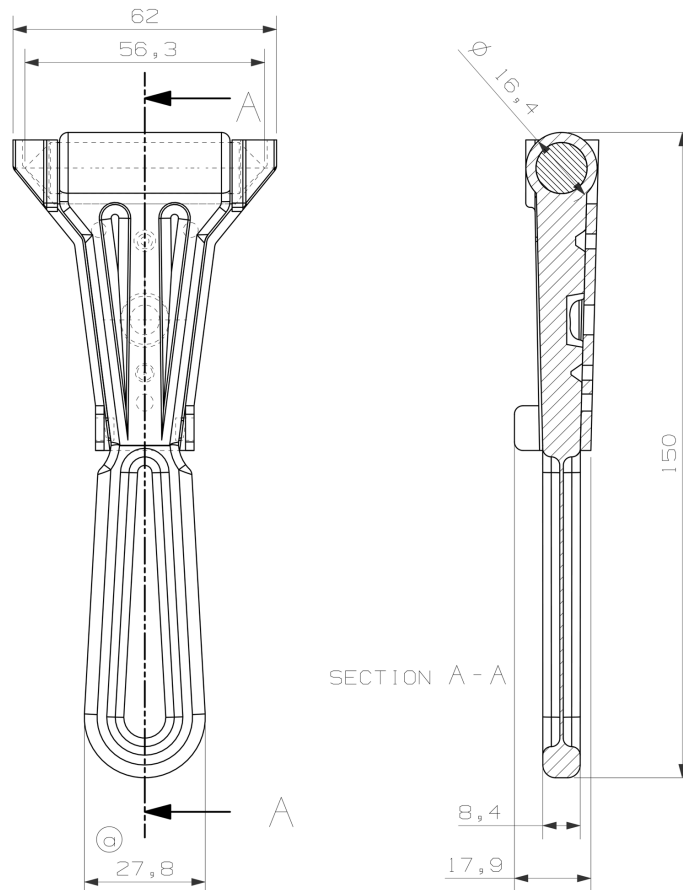

## Specifications

Stock No:	30000100
Stock Name:	Millennium
	Emergency Hammer
Materials:	PPC
Weight:	70 gr
Options:	Colors
Homologated:	ECE-R118 EN 45545
	FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this part are in conformity with the specifications and REACH. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be applied according to the customer request.

30000117

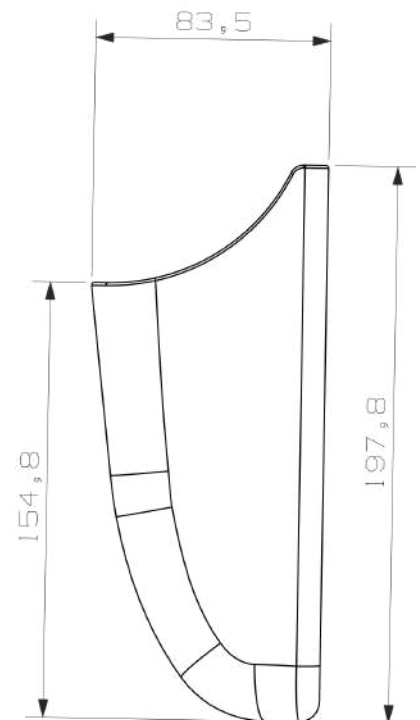

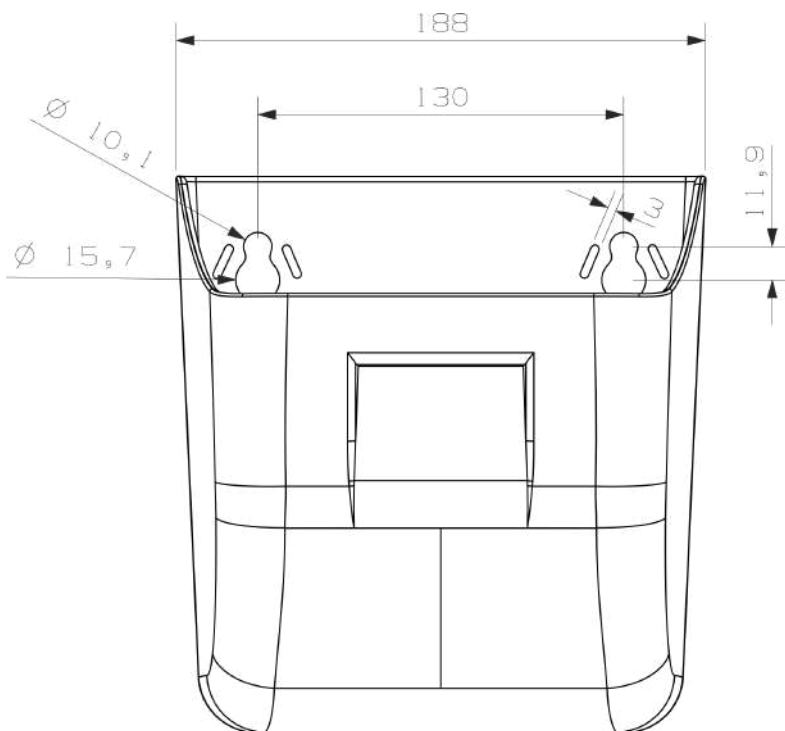

## Specifications

Stock No:	30000117
Stock Name:	Wastebin
Materials:	PPC
Weight:	285 gr
Options:	Colors
Homologated:	EN 45545 - UIC 564-2
	FMVSS 302- CMVSS 302
	ECE-R118

## Technical Features

All the plastic materials in this part are in conformity with the specifications and REACH. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be applied according to the customer request.

60300007

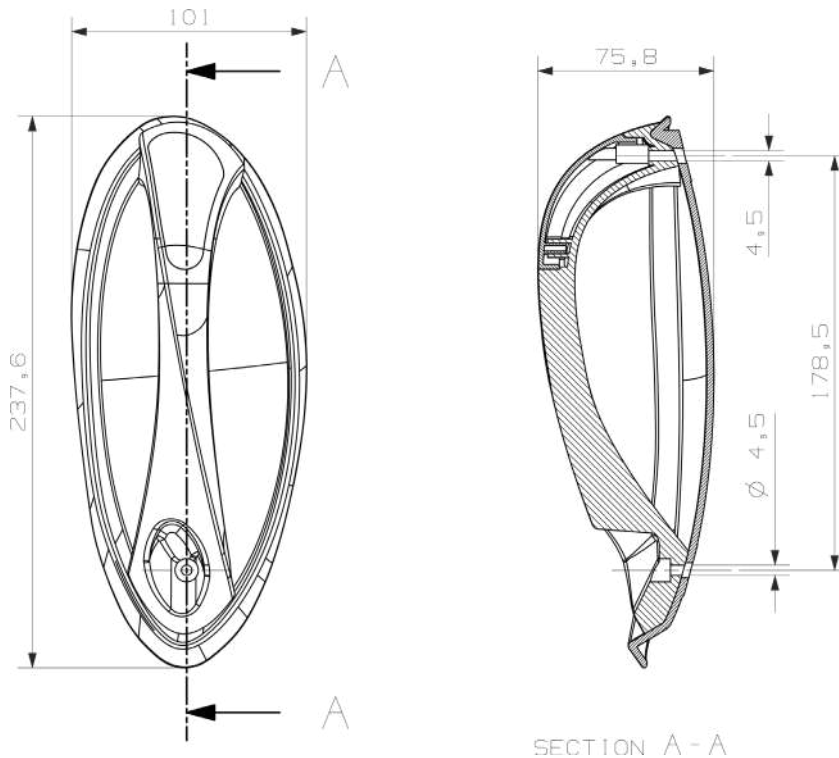

## Specifications

Stock No:	60300007
Stock Name:	AKD Vip Handle
Materials:	PPC
Weight:	145 gr
Options:	Colors
Homologated:	ECE-R118
	FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this part are in conformity with the specifications and REACH. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be applied according to the customer request.

30000103

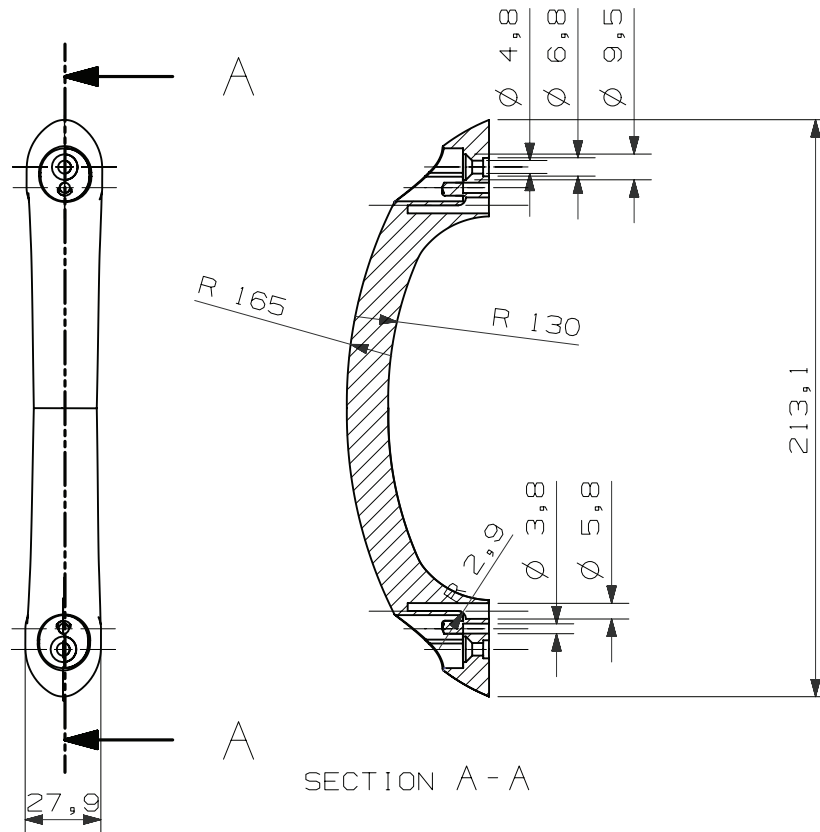

## Specifications

Stock No:	30000103
Stock Name:	Grab Handle
Materials:	PPC
Weight:	70 gr
Options:	Colors
Homologated:	ECE-R118
	FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this part are in conformity with the specifications and REACH. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be applied according to the customer request.

30000125

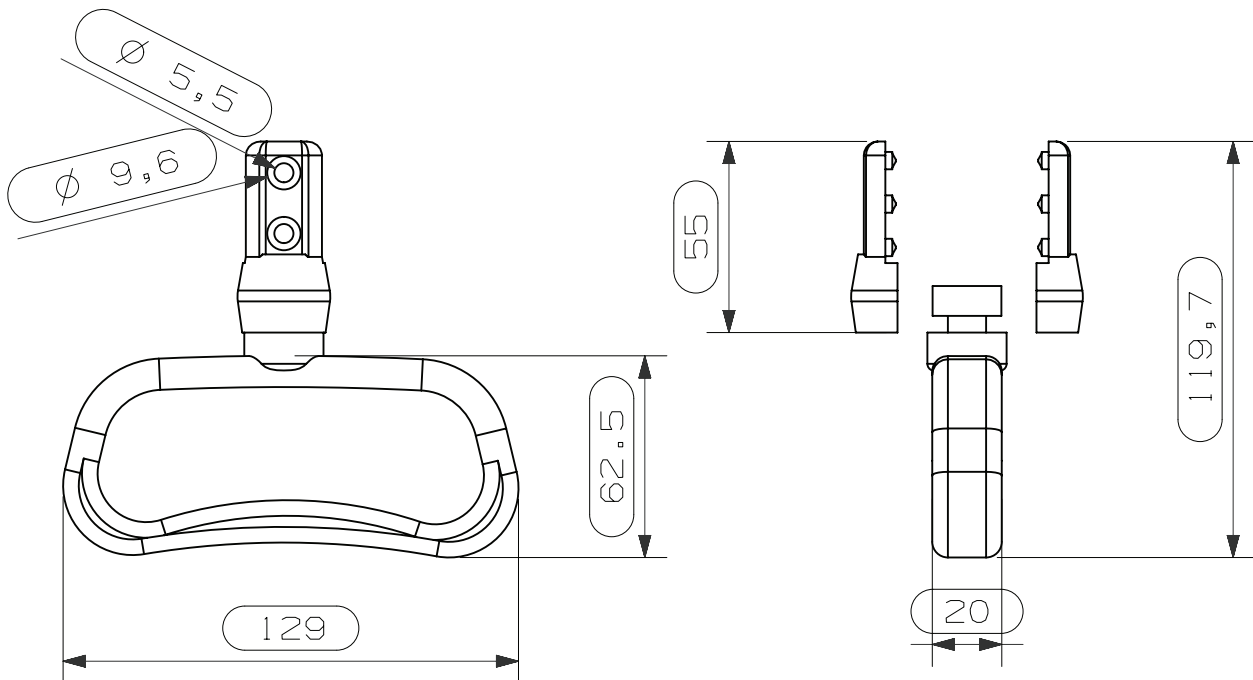

## Specifications

Stock No:	30000125
Stock Name:	Citybus Grab Handle
Materials:	PPC
Weight:	90 gr
Options:	Colors
Homologated:	ECE-R118
	FMVSS 302 - CMVSS 302

## Technical Features

All the plastic materials in this part are in conformity with the specifications and REACH. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be applied according to the customer request.

30000424

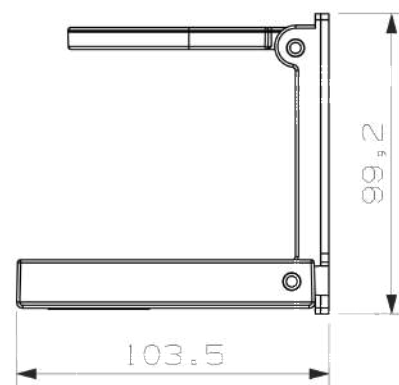

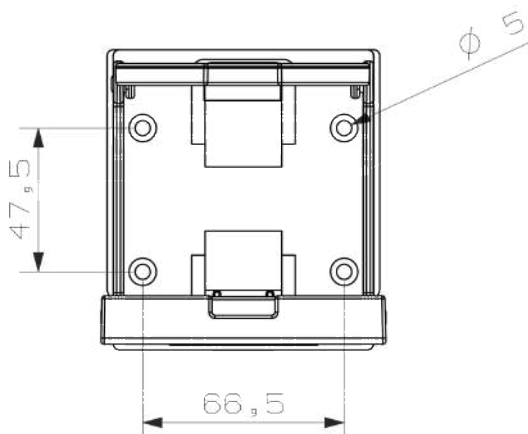

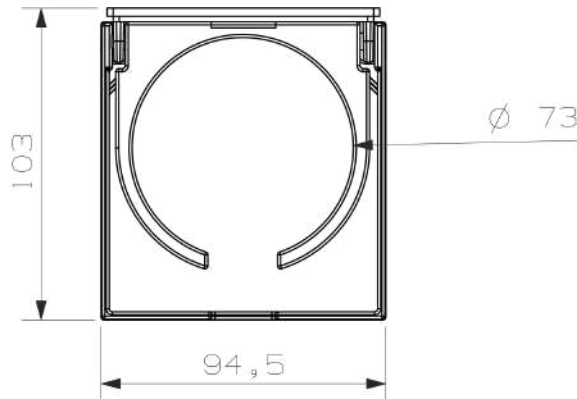

## Specifications

Stock No:	30000424
Stock Name:	Cup Holder
Materials:	ABS
Weight:	85 gr
Options:	Colors, Serigraphy
Homologated:	ECE-R118
	FMVSS 302 - CMVSS 302

## Technical Features

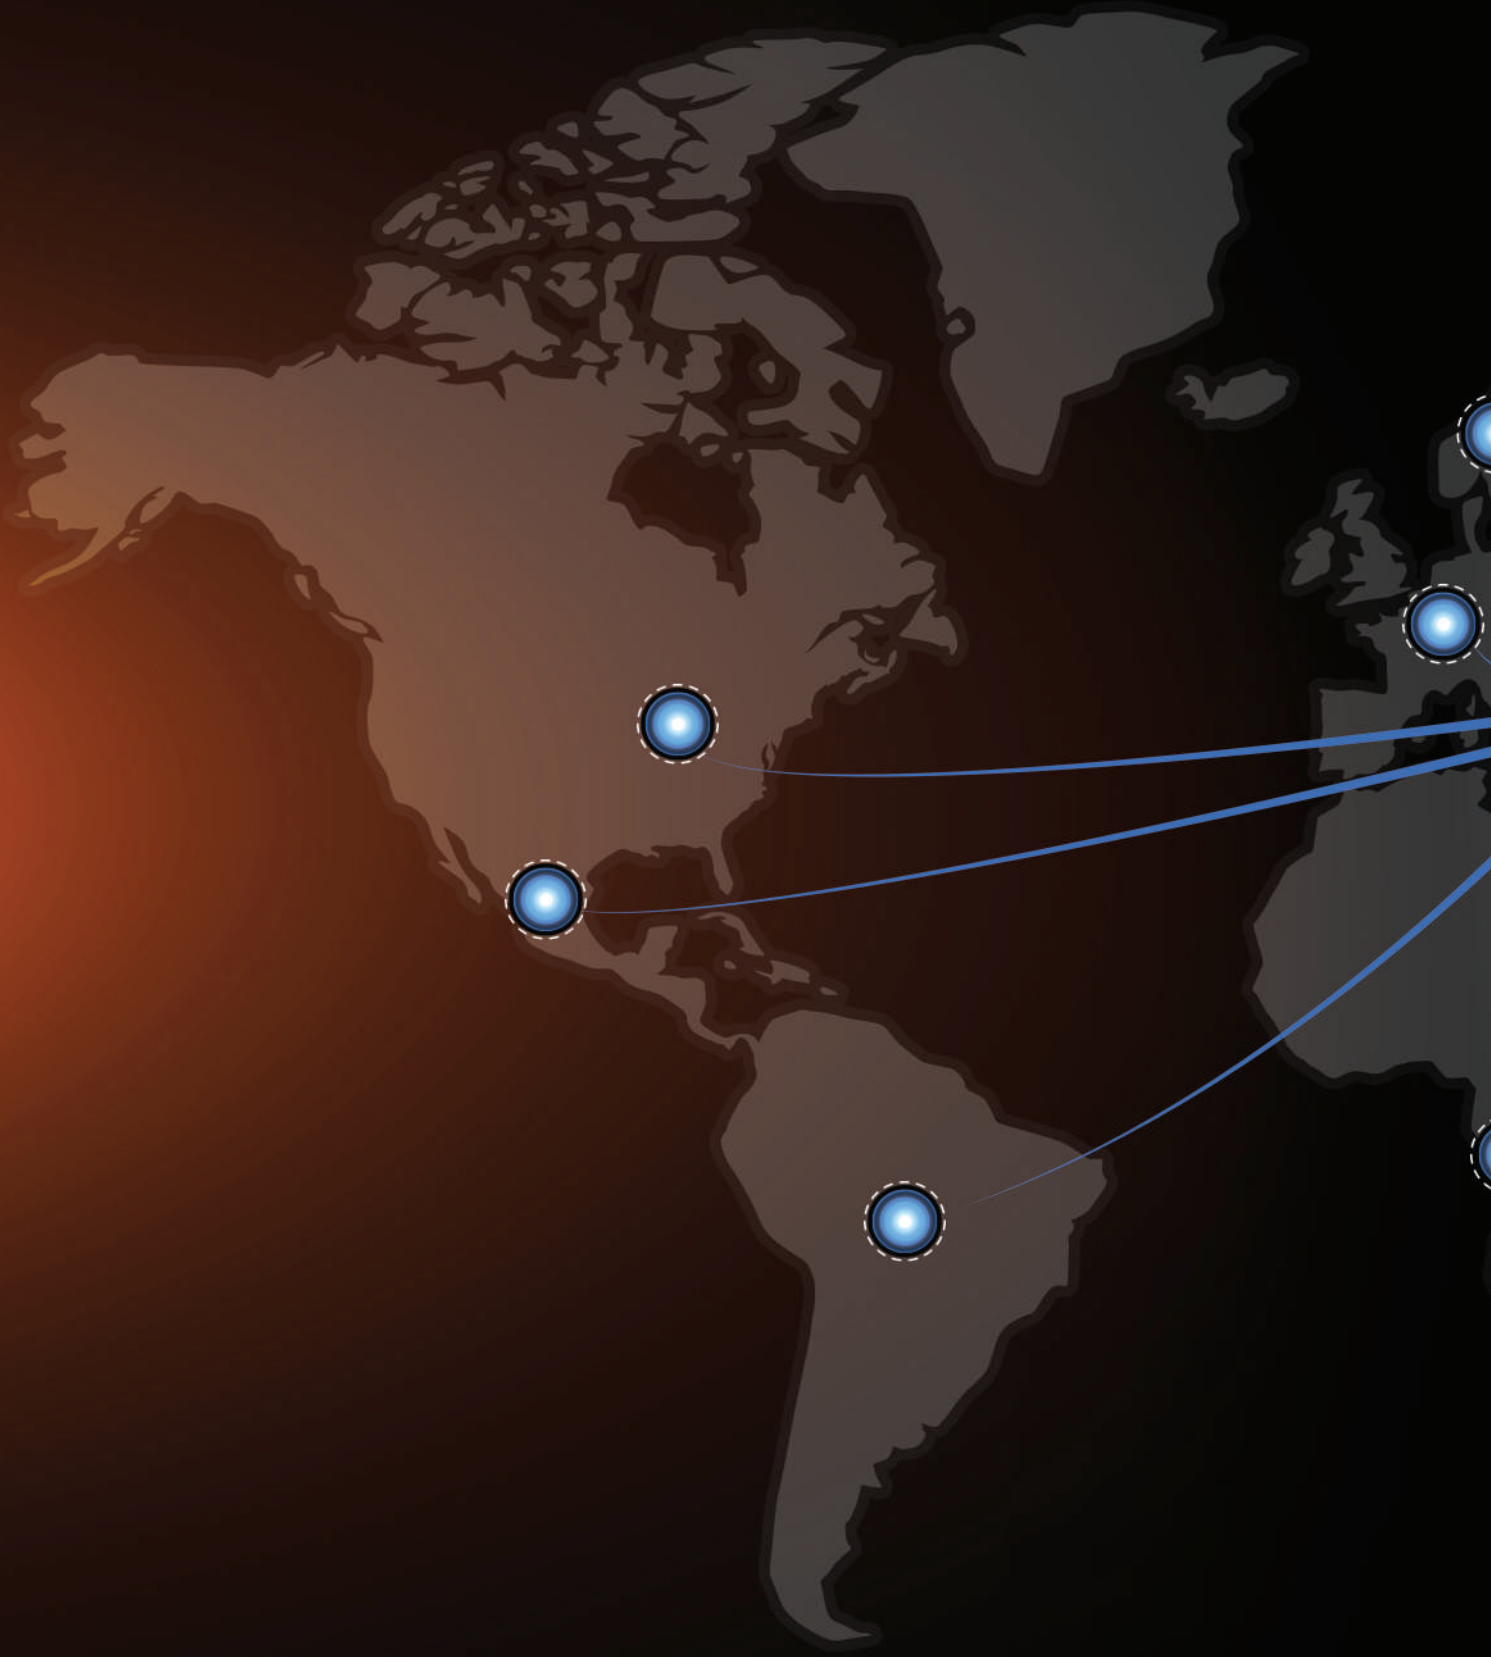

All the plastic materials in this part are in conformity with the specifications and REACH. In design we focused on creating robust, ergonomic, innovative, compact products. The color combinations can be applied according to the customer request.
